[Page 22: Before You Begin Using Your Device For Video Conferencing](#)

Setup requirements Room size and setup Your Chromebox for meetings for the large room system is designed for a 3-6 person conference room, though it works well in rooms of 2-10 people. We recommend a room that contains either a long table with the monitor at one end

(optimal), or a round table.

[Page 23](#) Display requirements and placement Your Chromebox for meetings for the large room work with LCD, LED, plasma, and projector-type monitors and televisions. The display must have an HDMI or DisplayPort input. The screen resolution must be at least 1280 x 720 pixels. For best video quality, we recommend a resolution of 1920 x 1080 pixels.

[Page 24: Setup Your System](#)

IMPORTANT: The included cable for the camera is 5 feet long, and the included cable for the speakerphone is 3 feet long. If your setup of the display, Chromebox for meetings for the large room, and peripherals requires longer distances, you may need to purchase additional USB extension cables.

[Page 25: Enroll Your Device](#)

- Press Select to make a selection. To complete basic enrollment: Turn on the display. Turn on the Chromebox for meetings for the large room. Verify or change your language, keyboard layout, and network. Select a network TIP: If your network doesn't appear in the list, select Join Network and enter the correct settings.

[Page 26](#) TIP: If you can't see video or hear audio during the test: • Ensure that your camera and speakerphone were connected to your Chromebox for meetings for the large room before you turned on your device. • Ensure that your camera and speakerphone are connected to your device properly.

[Page 27](#) At the end of device enrollment, the screen displays a URL for this device's page in the Chromebox for meetings for the large room Admin console. Using this URL, an admin user must add the room's online calendar to the device to enable scheduled meetings.

[Page 28: Making A Video Call](#)

It just means that you are leaving. The video call keeps going until the last person leaves it. From a room Press the red handset icon on the remote control or the speaker. Chromebox for meetings for the large room...

[Page 29: Manage Devices And Rooms](#)

Associate your Google Video Conferencing device with the room's online calendar After a user enrolls a Chromebox for meetings for the large room device in a room, an admin user needs to associate the device with that room's online calendar. This allows users to schedule video conferences using the Chromebox for meetings for the large room.

[Page 30](#) • Resource. Enter the room name and, optionally, the resource type and a description. Click Save. To associate your Chromebox for meetings for the large room device with the room's calendar, click Unassigned, click the room name, and click Save.

[Page 31](#) Select Yes or No. TIP: Having the device name match the calendar resource name makes it easy to identify which resource goes with which device. Chromebox for meetings for the large room...

[Page 32](#) Click the device whose information you want to view. 4. Click Hardware and Os. The right side of the screen displays device information including the model, serial number, MEID, and more. Chromebox for meetings for the large room...

[Page 33](#) Click the device for which you want to add information. 4. Click Notes. 5. On the right side of the screen, click Edit. 6. Enter the information you want in the User, Note, and/or Location field. 7. Click Save. Chromebox for meetings for the large room...

[Page 34](#) Associate your device with a different room's calendar, or unassign the device from any room If you move your Chromebox for meetings for the large room device to a different room, you need to assign the device to that new room's calendar.

[Page 35](#) Manage Resource. This takes you to the Calendar settings page where you can edit a resource's name, type, or description; create a new resource; or delete a resource.
