Exiting the Intel Rapid Storage Technology Option ROM utility

®

To exit the utility:

1.

From the utility main menu, select 5. Exit, then press <Enter>. The following warning message appears:

2.

Press <Y> to exit or press <N> to return to the utility main menu.

5.2

Installing the RAID driver during Windows

installation

To install the RAID driver for Windows

1.

During the OS installation, click Load Driver to allow you to select the installation media containing the RAID driver.

2.

Insert the USB flash drive with RAID driver into the USB port or the support DVD into the optical drive, and then click Browse.

3.

Click the name of the device you've inserted, go to Drivers > RAID, and then select the RAID driver for the corresponding OS version. Click OK.

4.

Follow the succeeding screen instructions to complete the installation.

Before loading the RAID driver from a USB flash drive, you have to use another computer to copy the RAID driver from the support DVD to the USB flash drive.

To set up a Windows driver for your optical drive.
