SPECIAL MAINTENANCE

Cleaning the plasma pure filter

Preparation:

1. Turn off the air conditioner using the remote controller.
2. Turn off the power supply.

• Clean the plasma pure filter when the FILTER indicator (orange) turns on.
(This indicator turns on after PURE operation of about 1000 hours.)

• After cleaning is finished, push the RESET button on the indoor unit.

• Perform cleaning every six months.

• Even if the FILTER indicator does not turn on, clean the plasma pure filter whenever the unit makes a humming, clicking, or buzzing sound. If the indicator turns on during the night, the air conditioner can still be used until the morning without a problem, but be sure to perform cleaning as soon as possible.

1. Turn off the air conditioner using the remote controller.
 2. Turn off the power supply.
- Clean the plasma pure filter when the FILTER indicator (orange) turns on.
(This indicator turns on after PURE operation of about 1000 hours.)

• After cleaning is finished, push the RESET button on the indoor unit.

Lift up the air inlet grille until it clicks into place.

Grasp the left and right handles of the air filter and lift up slightly and then pull downward to remove the filter from the filter holder.

3

Take out the plasma pure filter.

- Grasp the handles, and then pull out as shown in a and b.

Checks after cleaning the plasma pure filter

1. Confirm the FILTER indicator does not turn on by activating PURE operation for one hour or more.

<If it does not turn on, it is normal.>

2. If the FILTER indicator turns on, turn off the air conditioner using the remote controller.

- a) Fitting of the plasma pure filter
- b) Fitting of the air inlet grille

And, reconfirm the FILTER indicator does not turn on by activating PURE operation for another one hour or more.

<If it does not turn on, this is normal.>

3. In case the FILTER indicator does turn on, please call a service representative.

Cleaning the plasma pure filter

Preparations

1. Turn off the air conditioner using the remote controller.
2. Turn off the power supply.

• Clean the plasma pure filter when the FILTER indicator (orange) turns on.
(This indicator turns on after PURE operation of about 1000 hours.)

• After cleaning is finished, push the RESET button on the indoor unit.

- Perform cleaning every six months or so.
- Even if the FILTER indicator does not turn on, clean the plasma pure filter whenever the unit makes a sound. If the indicator turns on during the night, the air conditioner can still be used until the morning.

• After cleaning is finished, clean as soon as possible.
