- When playing a DVD-RAM disc, you can access chapters only in the current title if "Title playback" ("Title resume". To access chapters in other titles, set to "Serial playback".
- When playing a DVD video disc or a DVD-R/RW disc, you can locate chapters only in the current title if "DVD title stop" (page 112) is set to "On". To access chapters in other titles, set to "Off". However, in this instance even though you press the SKIP REV button to go back to the previous title, playback starts not from the last chapter of the title but from the first chapter.
