[Page 3: Important Safety Instructions](#)

ENGLISH Installation Page Instructions for use Page IMPORTANT SAFETY INSTRUCTIONS YOUR SAFETY AND THAT OF OTHERS IS VERY IMPORTANT This manual and the appliance itself provide important safety messages, to be read and always observed. This is the danger symbol, regarding safety, warning of potential risks to users and others. All safety messages will be preceded by the danger symbol and the following words: Indicates a hazardous situation which, if not avoided, will result in serious DANGER...

[Page 4: Safeguarding The Environment](#)

SAFEGUARDING THE ENVIRONMENT Disposal of packaging materials The packaging material is entirely recyclable and marked with the recycling symbol (). Do not dispose of the various packaging materials carelessly, but do so responsibly and in full compliance with local authority regulations governing waste disposal. Scrapping This appliance is marked in compliance with European Directive 2002/96/EC on Waste Electrical and Electronic Equipment (WEEE).

[Page 5: Installation](#)

INSTALLATION After unpacking the hob, check that there has been no damage during transport. If in doubt, contact the dealer or After-sales Service. PREPARING THE HOUSING UNIT Install a separator panel under the WARNING hob. The lower part of the product must not be accessible after installation.

[Page 6: Control Panel Description](#)

INSTRUCTIONS FOR USE Control Panel Description The control panel is equipped with touch controls: to use them, just press the corresponding symbol (a light touch is sufficient). To select and activate the cooking zones MIN. To set the minute counter To enable the hold Hob ON/OFF function...

[Page 7: Timer Selection](#)

Timer selection The timer can be used to set a max. cooking time of 90 minutes. Select the cooking zone to be used with the timer (a dot lights up at the bottom right of the power level indicator), then set the required cooking time using the + and - keys of the timer function: the time in minutes is shown next to the cooking zone display.

[Page 8](#) When the flexi cook function is selected, the booster and sixth sense functions cannot be used. If the timer is set, it will be displayed alongside the hotplate display at the top. Description of automatic functions The hob features automatic functions for each cooking zone. The symbols of the available functions are shown next to the selection key of each cooking zone. Every time an automatic function is selected, an indicator light turns on next to the symbol and the letter "A"...

[Page 9: Troubleshooting Guide](#)

CLEANING Never use steam cleaners. WARNING Before cleaning, make sure the cooking zones are switched off and that the residual heat indicator ("H") is not displayed. IMPORTANT: do not use abrasive sponges or pan scourers. as they could ruin the glass surface. •...
