#### Page 16: Prevention Of Hearing Loss

Prevention of Hearing Loss To prevent possible hearing damage, do not listen at high volume levels for long periods. For France, headphones/earphones for this device are compliant with the sound pressure level requirement laid down in the applicable EN 50332-1:2000 and/or EN50332-2:2003 standard required by French Article L.5232-1.

#### Page 17: Safety Information

-10 °C (14 °F) and 35 °C (95 °F). IMPORTANT! To provide electrical insulation and maintain electrical safety, a coating is applied to insulate the ASUS Phone body except on the sides where the I/O ports are located. WARNING! Any damage to the device may affect its performance and may cause it to malfunction.

#### Page 18: The Battery

The battery Your ASUS Phone is equipped with a high performance non-detachable Li-lon battery. Observe the maintenance guidelines for a longer battery life. • Do not remove the non-detachable Li-on battery as this will void the warranty. • Avoid charging in extremely high or low temperature.

#### Page 19: The Charger

Phone is in use. IMPORTANT! Do not leave your ASUS Phone connected to the power source once it is fully charged. Your ASUS Phone is not designed to be connected to the power source for extended periods of time. The charger •...

#### Page 20: Driving Safely

Never use solvents for cleaning. • If you are not going to use your ASUS Phone for some time, fully charge the battery and store your ASUS Phone in a dry place away from direct sunlight. Your ASUS Phone should be switched off during storage.

#### Page 21: Electronic Devices

Wireless Technology Research. If you have a pacemaker: • Always keep your ASUS Phone more than six inches (15cm) from your pacemaker when turned on. • Do not carry your ASUS Phone in your breast pocket.

#### Page 22: Other Medical Devices

RF energy. Your physician may be able to assist you in obtaining this information. Turn your ASUS Phone off in healthcare facilities when any regulations posted in these areas instruct you to do so. Hospitals or healthcare facilities may be using equipment that could be sensitive to external RF energy.

#### Page 23: Magnetic Media

Magnetic fields generated by mobile devices may damage data on magnetic storage media, such as credit cards, computer discs or tapes. Do not place your ASUS Phone next to such media. You should never expose your ASUS Phone to strong magnetic fields as this may cause temporary malfunction.

<u>Page 24</u> Keep your ASUS Phone away from children as the SIM card and other small parts present a choking hazard. Caution Your ASUS Phone is a high quality piece of equipment. Before operating, read all instructions and cautionary markings on the (1) AC Adapter.

#### Page 25: Asus Recycling/Takeback Services

• Do not disassemble the ASUS Phone or its accessories. If service or repair is required, return the unit to an authorized service center. If the unit is disassembled, a risk of electric shock or fire may result. • Do not short-circuit the battery terminals with metal items.

#### Page 26: Proper Disposal

Proper disposal Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions. DO NOT throw the battery in municipal waste. The symbol of the crossed out wheeled bin indicates that the battery should not be placed in municipal waste.

Page 27 Fax: 886228907698 Declaration We declare that the IMEI codes for this product, ASUS Phone, are unique to each unit and only assigned to this model. The IMEI of each unit is factory set and cannot be altered by the user and that it...
