Summary of Contents for Toshiba Canvio AeroCast HDTU110XKWC1

[Page 1](#) TOSHIBA™ Canvio Aero Cast User's Manual English...

[Page 2](#) For the state of California only. Safety information and Rules and Regulations for wireless LAN Wireless LAN devices may cause interference with medical equipment such as cardiac pacemakers. If you use personal medical equipment, consult with your physician and medical equipment instructions before using the Product.

[Page 3](#) Federal Communications Commission (FCC) Notice (USA) Complies with FCC RF Exposure requirements. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

[Page 4](#) Declaration of Conformity for Products Marked with the FCC Logo (USA) This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) This device may not cause harmful interference, and 2) This device must accept any interference received, including interference that may cause undesired operation.

[Page 5](#) Radiation Exposure Statement: The product comply with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

[Page 6](#) Copyright This manual may not be reproduced in any form without the prior written permission of Toshiba. No liability is assumed with respect to the use of the information contained herein. ©2014 by Toshiba America Information Systems, Inc. All rights reserved.

[Page 7](#) Trademarks Canvio and Canvio AeroCast are either trademarks or registered trademarks of Toshiba America Information Systems, Inc. Android, Google Play and Google Chrome are trademarks of Google, Inc. Apple, Mac, Mac OS, iPad, iPhone, Safari and Time Machine are trademarks of Apple Inc., registered in the U.S.

[Page 8](#) Provides important information. * Serious injury including blindness, wounds, burns (low and high temperature), electric shock, fractures, and poisoning, etc. with long-lasting effects or that require hospitalization and/or long-term hospital visits for treatment. * Minor or moderate injury includes wounds, burns, electric shock, etc. not requiring hospitalization and/or long-term hospital visits for treatment.

[Page 9](#) Other icons used Additional icons highlight other helpful or educational information: TECHNICAL NOTE: This icon indicates technical information about the device. HINT: This icon indicates helpful hints and tips. DEFINITION: This icon indicates the definition of a term used in the text. Battery safety precautions Do not immerse the drive (with the internal battery in it) in liquid such as water, beverages, or other...

[Page 10](#) Keep the product away from small children. If the product is broken or has cracks, keep the battery and any or its components parts away from small children. If the battery liquid

or any of its component parts are swallowed, seek medical attention immediately.

[Page 11](#) Safety Precautions for the Battery Do not immerse the drive (with the internal battery in it) in liquid such as water, beverages, or other fluids. The battery (including protection circuit) may catch on fire, smoke, explode, or cause heat generation by unexpected electrical load. Keep the drive (with the internal battery in it) away from heat and fire.

[Page 12](#) Actual battery life may vary depending on settings, application usage, features or tasks selected, network configuration, operating temperature and many other factors. Recharge time varies depending on usage. The battery may not charge while the drive is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity.

[Page 13](#) Do not allow any liquids or metal objects such as screws, staples or paper clips to enter the drive. Foreign objects may create a short circuit, which may cause product damage and fire, possibly resulting in serious injury. Do not use the drive when there is an abnormality in metal parts and plastic parts, as it may result in electric shock.

[Page 14](#) Do not disconnect the USB cable and AC adaptor while operating, as it may result in loss of data or damage to the drive. Do not touch the USB cable while and AC adaptor operating, as it may result in loss of data or damage to the drive. Do not bump, drop or jar the drive, as it may result in loss of data or damage to the drive.

[Page 15](#) Toshiba is not responsible for any damage due to the fail or negligence of users, fire, earthquake, or other accident beyond the control of Toshiba. Toshiba is not responsible all if you do not follow the mention content listed in the user's manual.
