Adjusting the Airflow Direction

A. Horizontal (Wall mounted type only)

The horizontal airflow can be adjusted by moving the vertical vane to the left or right.

B. Vertical

Confirm that the remote control unit has been turned on. Press the FLAP button to start the flap moving up and down (flap movement and to direct the air in the desired direction, press the FLAP button again. In the COOL mode, don't direct the flap down more than 30° (KS, TS Types), or leave it in the vertical position (XS Type), otherwise condensation may drip onto the floor. Zone "A" (KS, TS Type) and any position other than vertical (XS Type) are the recommended flap positions for cooling.
