**SUPPLIED ACCESSORIES**

- Remote Control (NC302UH) and Batteries (AAA, 1.5V x 2)
- Setup Manual
- Digital Audio Coaxial cable
- Digital Audio Optical cable

**SUPPLIED ACCESSORIES**

Register Online at [sanyo-av.com](http://sanyo-av.com) to get the most benefits from your purchase.

Most modern digital TV's do not have Red and White Coaxial Analog Audio Outputs, but do have Red and White Coaxial Analog Audio Inputs. If you plan to use Red and White Analog Coaxial Cables to Connect your TV to this Soundbar, please ensure that your TV does indeed have Red and White Coaxial Analog Audio OUT. Refer to your TV's User Manual for details.

To Connect Soundbar directly to other devices (Blu-ray player, Game System, etc.), see your Device's User Manual.

## Bluetooth Setting

1 Press the **Bluetooth** (Bluetooth icon) button on the Remote Control to switch the Soundbar to Bluetooth mode.

2 Turn On your Bluetooth compatible device.

3 On your Bluetooth compatible device search for and select "SANYO\_FWSB426F" to pair (or register) your Soundbar with your Bluetooth compatible device.

4 If the Soundbar name does not appear on the Bluetooth compatible device, press the **Bluetooth** (Bluetooth icon) button on the Remote Control.

5 If the Bluetooth compatible device does not appear on the Soundbar, press the **Bluetooth** (Bluetooth icon) button on the Remote Control.

6 To Exit Bluetooth mode, press another Audio Input Source button on the Remote Control.

**NOTE(s):**

- If reconnecting the Bluetooth device to the soundbar fails, delete the registered profile of this Soundbar from the Bluetooth device, then perform pairing again.
- This unit can store up to 9 device profiles.
- Connect with the Bluetooth compatible device.
- If a Passcode is requested, enter "0000".
- If you are unable to connect, please refer to the Online Owner's Manual.

## Mount Soundbar on a Wall

1 Use the "Wall Mounting Template" at the bottom right of this guide when you make the screw holes on the wall.

2 Use the "Wall Mounting Template" at the bottom right of this guide when you make the screw holes on the wall.

3 Use the "Wall Mounting Template" at the bottom right of this guide when you make the screw holes on the wall.

4 Use the "Wall Mounting Template" at the bottom right of this guide when you make the screw holes on the wall.

5 Use the "Wall Mounting Template" at the bottom right of this guide when you make the screw holes on the wall.

6 Use the "Wall Mounting Template" at the bottom right of this guide when you make the screw holes on the wall.

# Setup Manual

Use the "Wall Mounting Template" at the bottom right of this guide when you make the screw holes on the wall.

1 Use one of the Connection Methods shown below to Connect the Soundbar to your TV before plugging in the AC Power cord.

**Digital Audio Coaxial Cable** (not supplied)

**Digital Audio Optical Cable** (not supplied)

Refer to the Online Owner's Manual for details.

**Insert Batteries**

Install 2 AAA (1.5V) batteries (supplied)

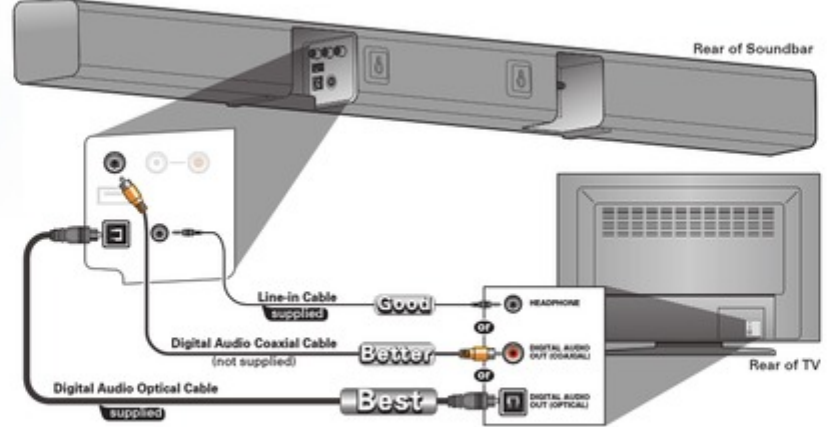

NOTE(s):  
• Do not mix old and new batteries.  
• Do not mix alkaline, standard (carbon-zinc) or rechargeable (Ni-cad, Ni-mh, Li-Ion, etc.) batteries.

**Connections**

1 Use one of the Connection Methods shown below to Connect the Soundbar to your TV before plugging in the AC Power cord.

Most modern digital TV's do not have Red and White Coaxial Analog Audio Outputs, but do have Red and White Coaxial Analog Audio Inputs. If you plan to use Red and White Analog Coaxial Cables to Connect your TV to this Soundbar, please ensure that your TV does indeed have Red and White Coaxial Analog Audio OUT. Refer to your TV's User Manual for details. To Connect Soundbar directly to other devices (Blu-ray player, Game System, etc.), see your Device's User Manual.

- Adjust the Headphone Volume on some TV's if you connect this Unit to the Headphone jack on your TV using the Supplied 3.5mm Line-In cable.
- If Input is Optical Sound make sure that the Optical Cable Connector is correctly inserted into the Terminal (Click Sound heard when properly inserted).
- Press and Hold CONNECT button on the Rear of the Subwoofer until the Red LED starts blinking fast. Use the Soundbar Remote Control to pair the Soundbar in AUX input, when in AUX input, Press and Hold the PAIR button on the Remote Control until the AUX and BLUETOOTH LEDs on the Soundbar blink together. At this point the Soundbar will enter Pairing Mode. If the pairing is successful, the LED on the Rear of the Subwoofer will light up solid Red. See the Online Owner's Manual for details: [sanyo-av.com](http://sanyo-av.com)
- Certain Sound Sources may not contain enough Bass Sound to activate the Echo Sound.
- It is normal for the TV and Soundbar Sounds to have an Echo Sound when both are turned On.
- To Eliminate the Echo Sound Turn the Off or Mute the TV Sound.
- Check the Batteries in Remote Control and make sure they are Inserted properly using the correct polarity.
- Aim Remote at the Center of this Unit.
- Use a Digital or Phone Camera pointing the Remote Control at the Camera Lens, Press any Remote button. If Remote IR LED(s) flash on Camera Display, then the Remote is successfully transmitting an IR signal. Some Phone Cameras have IR filters in their Lens, therefore you will not see the IR LED(s) flash on the Camera Display.
- If your Thumb is used to operate the Remote Control, the Remote may not be fully working when pointed at the Soundbar, make sure that your Index Finger is Not used to operate the Remote Control to receive the signal from the Front of the Remote Control.
- Confirm that Bluetooth is Enabled on the external Device. See the User Manual on the external Device on how to enable Bluetooth.
- And see the Device Owner's Manual for details on how to connect the connected Device, then try again.
- The Sound quality may be poor. Confirm that there is no obstacle between the Bluetooth Device and the Soundbar. If this does not improve the Sound quality, move the Bluetooth Device closer to the Soundbar.
