- Back up and restore your device data
- Copy (rather than synchronise) files between your device and desktop computer
- Schedule data synchronisation by selecting a synchronisation mode. For example, you can synchronise continually while connected to your desktop computer or only when you choose to synchronise.
- Select which information types are synchronised and control how much data is synchronised. For example, you can choose to synchronise your appointments of the past two weeks only, appointments older than two weeks are not synchronised.
