Port

Back side

The following figure shows the computer back panel.

User's Manual

This jack lets you connect to a LAN. The adapter has built-in support for Ethernet LAN (10 Mbps, 10BASE-T), Fast Ethernet LAN (100 Mbps, 100BASE-TX). Two indicators built into the jack let you see the LAN status.

The Universal Serial Bus (USB 2.0 and 1.1 compatible) port enables USB-equipped devices such as keyboards, mice, hard drives, scanners, and printers to be connected to the computer.

This slot allows you to insert an Express Card. An Express Card module is a small, modular add-in card technology based on PCI Express and Universal Serial Bus (USB) interface. The max. transmission rate at 2.5Gbps. Both 34mm type and 54mm type are supported.

(The availability of this function depends on the model you purchased.)

This port allows you to connect an external device, such as a digital video camera, for high-speed data transfer.

(The availability of this function depends on the model you purchased.)
