Cleaning the computer

To help ensure long, trouble-free operation, keep the computer free of dust and use care with liquids around the computer. Be careful not to spill liquids into the computer. If the computer does get wet, turn the power off immediately and let the computer dry completely before you turn it on again. Clean the computer using a slightly damp (with water) cloth. You can use glass cleaner on the display. Spray a small soft, clean cloth and wipe the screen gently with

soft, clean cloth and wipe the screen gently with the cloth.

Never spray cleaner directly onto the computer or let liquid run into any part of it. Never use harsh or caustic chemical products to clean the computer.

Cleaning the computer

To help ensure long, trouble-free operation, keep the computer and use care with liquids around the computer.

Moving the computer

The computer is designed for rugged durability. However, a few simple precautions taken when moving the computer will help ensure trouble-free operation.

- Be careful not to spill liquids into the computer. If wet, turn the power off immediately and let the computer dry before you turn it on again.

Make sure all disk activity has ended before moving the computer. Clean the computer using a slightly damp (with soft, clean cloth and wipe the screen gently with use glass cleaner on the display. Spray a small
