[Page 7: Part I Limited Warranty](#)

TOSHIBA TEC AMERICA RETAIL INFORMATION SYSTEMS, INC. warrants this product to be free from defects in materials and workmanship for a period of 90 days from the date of purchase from an authorized TOSHIBA TEC AMERICA RETAIL INFORMATION SYSTEMS, INC. dealer. This warranty is limited to the original purchaser, and to TOSHIBA TEC AMERICA RETAIL INFORMATION SYSTEMS, INC.

[Page 8: Part II About Symphony Pro Application](#)

The Symphony Pro Software application is designed as the back office controller for Symphony POS front end terminals and TEC ECRs. Together, they represent TOSHIBA TEC AMERICA RETAIL INFORMATION SYSTEMS, INC.'s most recent store management tools. Symphony Pro is the core application for back office control, acting as the centralized data storage, programming interface, communication center, event scheduler, and office application launcher.

[Page 9: Navigation](#)

To print a single page from the help viewer :Select the page you wish to print. © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a About Symphony Pro application You can download the reader from the Adobe website free...

[Page 10: Understanding Communications](#)

During a communication failure, each Symphony POS relies on its own database for item prices and other item information so the store can continue normal sales operations. Several factors are involved if the front end uses "floating cashiers" or customer accounts. © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a...

[Page 11: Data Maintenance](#)

NOTE: By default, Symphony Pro keeps the daily financial data for 365 days. The cleanup period can be defined in the configuration settings. We recommend you consult your © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a About Symphony Pro application...

[Page 12: Protecting Your Data](#)

Authorized TEC Dealer. For more on how to restore using the Symphony Pro file maintenance utility, see the File Maintenance Utility help page in this manual. © 2005 TOSHIBA TEC AMERICA

[Page 13: Part Iii Symphony Pro Main Menus](#)

You can also generate a report that shows cashiers with in-drawer amounts different than 0.00. File Menu File Menu Options With the exception of the Login, Logout and Viewer options, the File menu option accesses system © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a Symphony Pro Main Menus...

[Page 14: Login](#)

·Enter the user number from the keyboard* . (see note below about user numbers) ·Press [Enter]. * You can also double click the data entry area to open an on-screen numeric keypad, useful for touch screen situations. © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a...

[Page 15: Logout](#)

·Press the "OK" button to accept the language change, or ·Press the "Cancel" button (or top right hand window "X") to cancel the language change. © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a Symphony Pro Main Menus Operator Table...

[Page 16: View Internal Process](#)

The viewer has both a top bar main menu and buttons to control how the viewer behaves, and to allow you to determine what exchanges are being traced. The help pages below this topic explain the functions and controls for the "View Internal Process" viewer utility. © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a...

[Page 17: Process Viewer Buttons](#)

Use this option to determine if the key is functioning properly. The viewer does not show the content or value the key returns, only that the communication was successful. For example: 11:08:27.300 Send Key MailSlot 11:08:27.520 Mailslot received: Key info © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a Symphony Pro Main Menus...

[Page 18: Process Viewer Menus](#)

Export: Information files sent to external destinations, such as PLU files sent to another store or head office. Misc: Other types of files, messages. Errors: Error messages communicated through the system after an error occurs, normal, urgent etc. © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a...

[Page 19: View Polling Status](#)

Symphony does not control the language displayed in the viewer. To change languages, you must change the settings in the Window's Control Panel - Regional Settings utility. This example shows the Polling Process viewer. Menu Options © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a Symphony Pro Main Menus...

[Page 20: Execute Command File](#)

There are some situations that may require you to execute these commands manually. For example, internal commands that either failed, or could not be executed automatically at the scheduled time, © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a...

[Page 21: Deploy Individual File](#)

NOTE 2: If the border of the Deploy individual file window is blue, the current operator's security settings will not allow him to select the replace file option. © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a Symphony Pro Main Menus...

[Page 22: Configuration Panel](#)

The configuration panel is divided into tabbed sections: Company: Company name, address and other information used to personalize report pages etc. System: Store number, database type, server and office disk location and other installation setups. © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a...

[Page 23: Company](#)

Allow multi-store selection: This option is used to determine if this Symphony Pro installation will control multiple stores for pricing, inventory, etc. When selected, this option will affect certain utilities © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a Symphony Pro Main Menus...

[Page 24: Email](#)

Settings depend largely on the type of station being installed, such as server or secondary office station. In network situations, Symphony Pro uses the same database for all back office stations. © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a...

[Page 25](#) Database type: Select Paradox unless you are using MSSQL to manage the database tables. User: The user default for the native Paradox database is SA. Password: Leave this entry blank with the Paradox database. © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a...

[Page 26](#) 902. By default the message terminal is set to 901. Messages 2: Use this setting to send a copy of urgent messages received by the Main message © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a...

[Page 27: Misc](#)

Gift certificate section: Gift cert.valid for is used to determine the expired date that will be printed on gift certificates issued by Symphony POS. Next number is the number that Symphony Pro will assign © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a...

[Page 28: Host](#)

The Symphony Pro communication method and set-up is defined under the Host tab. Different communication types are supported such as dial up with modem to modem, or internet enabled data transfer. Entry module's help section © 2005 TOSHIBA TEC AMERICA AMERICA RETAIL SYSTEMS, INC. R1.0a in this manual for more...

[Page 29](#) This could be called, for example C:\OutBoxHost\ or any other directory you create for this purpose. The HQ Symphony Pro terminal does not need an entry for host path.
