[Page 3: Safety Precautions - Some Do's And Don'ts For You To Be Aware Of](#)

This equipment has been designed and manufactured to meet international safety standards but, like any electrical equipment, care must be taken to obtain the best results and for safety to be assured. Please read the points below for your own safety. They are of a general nature, intended to help with all electronic consumer products and some points may not apply to the goods you have just purchased.

[Page 4: Installation And Important Information](#)

Furthermore, under no circumstances shall Toshiba be liable for any consequential loss and/or damage including but not limited to the following, loss of profit, interruption of business, the loss of recorded data whether caused during normal operation or misuse of the product.

[Page 22: Input Selection And Av Connections - Input And Output Sockets For Connected Equipment](#)

Defining the INPUT and OUTPUT sockets so that the television recognises connected equipment. See page 6 for a clear view of the back connection recommendations. Most media recorders and decoders send a signal through the SCART lead to switch the television to the correct Input socket.

[Page 23](#) Input selection and AV connections PC audio In order to receive sound from a connected PC, plug the audio cable into the back of the television (as shown in 'Connecting a computer' section), then use the PC/HDMI1 audio settings. In the SET UP menu press down until AV connection is highlighted, then press OK.

[Page 24: Setting Up, General Information, Auto. And List Modes](#)

For further information on your particular text system(s), see the broadcast text index page or, consult your local Toshiba dealer. The four coloured choices at the bottom of the screen are numbers - 100, 200, 300 and 400, which have been programmed into the television's memory.

[Page 25: Text Services](#)

Below is a guide to the functions of the remote control text buttons. To display the index/initial page: Press to access the index/initial page. The one displayed is dependant on the broadcaster. To display a page of text: Press to display text. Press again to view a normal broadcast picture on the left of the screen and text to the right.

[Page 26](#) Below are the answers to some of the most common queries. For more information go to www.toshiba.co.uk Why is there no sound or picture? Check the mains switch is on and check all mains connections. Check the television is not in standby mode.

[Page 27: Cleaning The Screen And Cabinet](#)

Questions Why are there horizontal stripes and/or blurred images on the screen when in PC mode? The Clock phase may need adjustment. Select PC Setting from the SET UP menu, highlight Clock phase and adjust until the picture clears. Why are there problems with text? Good performance of text depends on a good strong broadcast signal.
