Bookmarks

To use Block Recogniser:

With Block Recogniser you can input character strokes using the stylus that are similar to those used on other devices.

1

Tap the arrow next to the Input Panel button and then Block Recogniser.

2

Write a letter in the box.

When you write a letter, it is converted to typed text that appears on the screen. For specific instructions on using Block Recogniser, with Block Recogniser open, tap the question mark next to the writing area.

Writing on the Screen

In any program that accepts writing, such as the Notes program, the Notes tab in Calendar, Contacts, and Tasks, you can use your stylus to write directly on the screen. Write the way you do on paper. You can edit and format what you've written and convert the information to text at a later time.

To write on the screen:

Tap the Pen button to switch to writing mode. This action displays lines on the screen to help you write.

Some programs that accept writing may not have the Pen button. See the documentation for that program to find out how to switch to writing mode.

Tap the Pen button and use your stylus like a pen.
