Page 20: Maintenance

Maintenance About lamp The product's light source is a mercury lamp that lights at increased internal pressure. Be sure to fully understand the following characteristics of the lamp and handle it with extreme care. • The lamp may explode with a loud noise due to impact or deterioration, or fail to light at the expiration of its life.

Page 21: Lens And Main Unit Cleaning

Lamp replacement (Continued) Used Lamps This projector's lamps contain trace amounts of environmentally harmful inorganic mercury. Be careful not to break used lamps, and dispose of them in accordance with local regulations. Lens and main unit cleaning WARNING • Request cleaning and maintenance of a ceiling-mounted unit from your projector dealership. Attempting to clean/replace the lamp at a high site by yourself may cause you to drop down, thus resulting in injury.
