Summary of Contents for Toshiba TLP251

[Page 2: Safety Precautions](#)

SAFETY PRECAUTIONS The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

[Page 3: Important Precautions](#)

2 hours when there is an extreme or sudden change in temperature. Exemption Clauses • Toshiba Corporation bears no responsibility in the case of damages arising from earthquakes, fire not liable to Toshiba Corporation, operating by third parties, other accidents, or use under abnormal conditions including erroneous or improper operation and other problems.

[Page 4: Contents](#)

IMPORTANT SAFETY INSTRUCTIONS CAUTION: PLEASE READ AND OBSERVE ALL WARNINGS AND INSTRUCTIONS GIVEN IN THIS OWNER’S MANUAL AND THOSE MARKED ON THE UNIT. RETAIN THIS BOOKLET FOR FUTURE REFERENCE. This set has been designed and manufactured to assure personal safety. Improper use can result in electric shock or fire hazard.

[Page 5: Contents](#)

IMPORTANT SAFETY INSTRUCTIONS (continued) 5. Heat The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat. 6. Water and Moisture Do not use this product near water – for example, near a bath tub, wash bowl, kitchen sink, or laundry tub;...

[Page 6: Contents](#)

IMPORTANT SAFETY INSTRUCTIONS (continued) 11. Object and Liquid Entry Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.

[Page 7: Contents](#)

IMPORTANT SAFETY INSTRUCTIONS (continued) 16. Damage Requiring Service Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions: a) When the power-supply cord or plug is damaged. b) If liquid has been spilled, or objects have fallen into the product.

[Page 8: Contents](#)

IMPORTANT SAFETY INSTRUCTIONS (continued) 21. Do not get your hands between the camera arm and the main unit when setting the camera arm back in its original position. To avoid injury, be careful not to get your hands caught when setting the camera arm back in its original position.

[Page 9: Power Supply Cord Selection](#)

Power supply cord selection If your line voltage is 220 to 240V, use one of the following types of cable. Plug type Line voltage configuration EURO 220 – 240V 240V 10 – 15A 200 – 240V 240V Australian 200 – 240V 240V North American 200 –...

FULL MENU adjustments and settings - Audio You can set the sound emitted from the speaker from FULL MENU [Audio]. To operate FULL MENU, refer to page Volume ADJ. Adjust the sound volume emitted from the speaker. Speaker output The sound is emitted from the speaker. No sound is emitted from the speaker.

[Page 49: Full Menu Adjustments And Settings - Display](#)

FULL MENU adjustments and settings - Display You can set the language, menu display, etc. from FULL MENU [Display]. To operate FULL MENU, refer to page Keystone ADJ. Adjust the keystone distortion caused by changing the installation angle. Menus and messages are displayed in English. Language English Menus and messages are displayed in French.

[Page 50: Full Menu Settings - Default Setting](#)

The projector is set to the ceiling-mounted rear projection mode. Rear ceiling Background Logo The TOSHIBA logo is displayed when no signal is input. Blue The entire screen is set to blue when no signal is input. None Nothing is displayed when no signal is input.

[Page 51: Full Menu Settings - Reset](#)

FULL MENU settings - Reset CONTENTS You can return the adjusting and setting values of all menus to the factory default setting. Reset all EXEC. Return the adjustments and settings of all menus to the factory default setting. Note The resettings made are memorized automatically when the power is turned off by pressing the ON/STANDBY button. If the power cord is unplugged or if a power failure occurs while the projector is on, the resettings are not memorized.

[Page 52: Pip Menu Setting](#)

PIP menu setting When a PIP sub-picture is displayed, the PIP menu screen will appear if you press the MENU button. You can make the PIP sub-picture settings when a PIP subpicture is displayed. To cancel the menu, press the EXIT button. Source Select the signal source for PIP sub-picture.

[Page 53: Part Names \(Of The Document Imaging Camera Model\)](#)

Part names (of the document imaging camera model) CAUTION When using the camera, be careful not to pinch your hand or fingers into the arm. On the document imaging camera model, you can project pictures using the document imaging camera. The document imaging camera

can directly project any materials (documents, illustrations, etc.) without using an OHP film.

[Page 54: Preparation Of The Document Imaging Camera](#)

Preparation of the document imaging camera 1) Raise up the arm. Before preparations (stowed away) 4) Incline the arm backward. 5) Move the camera head toward the object. Note Never give shocks or impacts to the camera or arm as this may cause malfunction. 2) Pull up the camera head.

[Page 61: Air Filter Cleaning](#)

Air filter cleaning CAUTION If you use the projector mounted on the ceiling, ask the dealer to carry out the maintenance such as cleaning. The filter inside the air filter cover is the part to shut out dusts or dregs. Do not use the projector with the filter taken off.

[Page 62](#) Air filter cleaning (continued) Notes • When the air filter is dusty, the ventilation is impaired. This causes the temperature inside the projector to rise, and may damage the unit. • Attach the air filter and the filter frame firmly after the cleaning.

[Page 63: Lens And Main Unit Cleaning](#)

Lens and main unit cleaning CAUTION If you use the projector mounted on the ceiling, ask the dealer to carry out the maintenance such as cleaning. Cleaning the lens Use a blower or a lens cleaner to clean the lens. Never rub or tap the lens with a hard object as the lens surface is fragile.

[Page 64: Lamp Replacement](#)

Lamp replacement The lamp will eventually begin to project dark or dull pictures and finally will not light up. (Lamp's life depends on operating conditions.) In such a case, replace the lamp with new one. CAUTION • If you use the projector mounted on the ceiling, ask the dealer to

carry out the maintenance such as cleaning or replacement of the lamp.

[Page 65](#) Lamp replacement (continued) Notes • When the CALL button is pressed, the “Lamp time” (the approximate amount of time the lamp has been used) will be displayed. • The lamp should be replaced if the total working time exceeds about 1,500 hours. When the “Lamp time”...

[Page 66: Before Calling Service Personal](#)
