WARNING: Changes or modifications made to this equipment, not expressly approved by Toshiba, or parties authorized by Toshiba, could void the user's authority to operate the equipment. Notice: This Class A digital apparatus complies with Canadian ICES-003.

[Page 3: Important Precautions](#)

IMPORTANT PRECAUTIONS Save Original Packing Materials The original shipping carton and packing materials will come in handy if you ever have to ship your LCD projector. For maximum protection, repack the set as it was originally packed at the factory. **Avoid Volatile Liquid** Do not use volatile liquids, such as an insect spray, near the unit.

[Page 4: Important Safety Instructions](#)

IMPORTANT SAFETY INSTRUCTIONS CAUTION: PLEASE READ AND OBSERVE ALL WARNINGS AND INSTRUCTIONS GIVEN IN THIS OWNER'S MANUAL AND THOSE MARKED ON THE UNIT. RETAIN THIS BOOKLET FOR FUTURE REFERENCE. This set has been designed and manufactured to assure personal safety. Improper use can result in electric shock or fire hazard.

[Page 5: Contents](#)

IMPORTANT SAFETY INSTRUCTIONS (continued) 5. **Heat** The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat. 6. **Water and Moisture** Do not use this product near water - for example, near a bath tub, wash bowl, kitchen sink, or laundry tub;...

[Page 6: Contents](#)

IMPORTANT SAFETY INSTRUCTIONS (continued) 11. **Object and Liquid Entry** Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short- out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.

[Page 7: Contents](#)

IMPORTANT SAFETY INSTRUCTIONS (continued) 16. **Damage Requiring Service** Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions: a) When the power-supply cord or plug is damaged. b) If liquid has been spilled, or objects have fallen into the product.

[Page 8: Contents](#)

IMPORTANT SAFETY INSTRUCTIONS (continued) 21. Do not get your hands between the camera arm and the main unit when setting the camera arm back in its original position. To avoid injury, be careful not to get your hands caught when setting the camera arm back in its original position.

[Page 9: Power Supply Cord Selection](#)

Power supply cord selection If your line voltage is 220 to 240V, use one of the following types of cable. Plug configuration Plug type Line voltage EURO 220 - 240V 240V 10 - 15A 200 - 240V 240V Australian 200 - 240V 240V North American 200 -...

Lock the white balance Camera control panel W.BALANCE OVERLAY ARM LIGHT LOCK CAMERA CAMERA GAIN This projector's camera is always being adjusted automatically for projected color balance; however, the balance can shift away from optimal due to the color scheme of the document.

[Page 61: Correcting Illuminated Defects](#)

Correcting illuminated defects Control panel (Main unit side) ON / STANDBY VOL / ADJ Press both sides Camera control panel W.BALANCE OVERLAY ARM LIGHT LOCK CAMERA CAMERA GAIN For the CCD image sensor used in the camera unit, in rare cases some of the pixels may be disturbed due to the influence of cosmic rays, etc.

[Page 62: Trouble Indications](#)

Trouble indications If there is some problem inside the projector, the indicators light up or blink. Indicators ON / STANDBY VOL / ADJ Control panel (Main unit side) The power does not come on. Malfunction of the unit. (Off) • Unplug the power cord and call the dealer. (Lit in red) The lamp turns off or does not light up.

[Page 63: Air Filter Cleaning](#)

Air filter cleaning CAUTION If you use the projector mounted on the ceiling, ask the dealer to carry out the maintenance such as cleaning. The filter inside the air filter cover is the part to shut out dusts or dregs. Do not use the projector with the filter taken off.

[Page 64](#) Air filter cleaning (continued) Notes • When the air filter is dusty, the ventilation is impaired. This causes the temperature inside the projector to rise, and may damage the unit. • Attach the air filter cover firmly after the cleaning. If it is not set correctly, the dusts will enter and they will be projected and overlapped on the picture.

[Page 65: Lens And Main Unit Cleaning](#)

Lens and main unit cleaning CAUTION If you use the projector mounted on the ceiling, ask the dealer to carry out the maintenance such as cleaning. Cleaning the lens • Use a blower or a lens cleaner to clean the lens. •...

[Page 66: Sold Separately](#)

Lamp replacement The lamp will eventually begin to project dark or dull pictures and finally will not light up. (Lamp's life length depends on the use condition.) In such a case, replace the lamp with new one. CAUTION • If you use the projector mounted on the ceiling, ask the dealer to carry out the maintenance such as cleaning or replacement of the lamp.

[Page 67](#) Lamp replacement (continued) Notes • When the CALL button is pressed, the "Lamp time" (the approximate amount of time the lamp has been used) is displayed. • The lamp should be replaced if the total work- ing time exceeds about 1,000 hours. When the "Lamp time"...

[Page 68: Before Calling Service Personal](#)
