# System Features

The following are system features that require Administrator setup using the DP5000-

## System Features

series telephone. For eManager programming refer to the *Strata CIX Programming Manual, Volume 1*.

### Direct Inward System Access (DISA) Security Code

The Direct Inward System Access feature is used when calling into your system from the outside. This feature is available on certain CO lines and from the built-in Auto

The Direct Inward System Access feature is used when calling

Attendant. Assignments are made by the system programmer. CO lines can be DISA

lines in the Day, Day 2, or Night mode, or any combination of these modes.

If a caller enters the system via a DISA line or built-in Auto Attendant, the caller can

# System Features

then access another line to place an outgoing call through the system, in which case

the outgoing line call is charged as a call made from the CIX system. To prevent unauthorized outgoing calls through the system using the DISA feature, enter a

DISA

security code as shown in the following steps.

## Direct Inward System Access (DISA) Sec

CAUTION!

The Direct Inward System Access feature is used when calling the outside. This feature is available on certain CO lines and for lines in the Day, Day 2, or Night mode, or any combination of

1. Press DN + DISA Security Access Code (see note). A confirmation tone is heard.

2. Dial the existing DISA security code (1-15 digits).

3. Press #, confirmation tone is heard and display

4. Enter the new DISA security code as shown in the following steps.

shows Data Programmed.

5. Lift handset off-hook and on-hook to end session.

**CAUTION! Whenever the built-in Auto Attendant is installed, the DISA security code should be used (and changed periodically) to prevent unauthorized access of outgoing CO lines via the Auto Attendant DISA access feature.**

DISA access feature.

10/10

### ➤ To change the DISA security code

1. Press DN + DISA Security Access Code (see note). A confirmation tone is heard and display

2. Dial the existing DISA security code (1-15 digits).

3. Press #, confirmation tone is heard.

4. Enter the new DISA security code + #, confirmation tone is
