[Page 4: Installation Steps](#)

Plug power supply cord into grounded outlet Make proper gas connection Install anti-tip bracket
Secure range with anti-tip bracket Installation steps Preparation **WARNING** Excessive Weight
Hazard Use two or more people to move and install range. Failure to follow this instruction can
result in back or other injury.

[Page 5: Operating Position](#)

Operating position front leveling leg rear leveling leg Remove cardboard shipping base from
under range. Remove storage drawer. Use a 3/8" drive ratchet to lower rear leveling legs one-
half turn. Use channel lock pliers to lower front leveling legs one-half turn. Gas and electrical
connections All connections must be wrench-tightened.

[Page 6: Check Operation](#)

Check operation Electronic ignition system Cooktop and oven burners use electronic ignitors in
place of standing pilots. When a cooktop control knob is turned to the "LIGHT" position, the
system creates a spark to light the burner. This sparking continues until the control knob is
turned to the desired setting.

[Page 7: Check Operation Of Oven Broil Burner](#)

Check operation (cont.) Check operation of oven broil burner Follow the instructions for your
type of oven controls. Note: A faint ticking sound will be heard while the oven burner lights. The
oven burner should light within 8 seconds. If your range has an oven temperature control knob:
PUSH TO TURN...
