## B-EX700-RFID-H3-QM-R Installation Manual

The B-EX700-RFID-H3-QM-R is exclusively for the B-EX4T1-GS12/TS12-QM-R.  
 This unit must come together with B-EX904-R-QM-R Ribbon Saving Module during installation.  
 This RFID kit complies with radio laws of all applicable countries.  
 As this product is a wireless communication device, please be sure to read the following precautions carefully.

**WARNING!**  
 Do not use this product as a wireless communication device, please be sure to read the following precautions carefully.

from this product may affect the operation of medical equipment, such as an implanted cardiac pacemaker and implantable cardioverter-defibrillator.

**WARNING!**  
 If a use of this product should be likely to have affected medical equipment, immediately turn off the printer and contact your TOSHIBA TEC sales agent.  
 Keep a printer embedded with this product at least 23cm away from a person with an implanted cardiac pacemaker or implantable cardioverter-defibrillator.  
 If a use of this product should be likely to have affected medical equipment, immediately turn off the printer and contact your TOSHIBA TEC sales agent.  
 Do not export a printer embedded with this product to the countries or areas where a use of this product is not allowed, without permission. Doing so is against the law, and you may be punished.  
 When exporting this product, check the laws and regulations of a destination country and take necessary procedures.

Follow all manual instructions. Failure to do so could create safety hazards such as fire or electrocution.  
 When exporting this product, check the laws and regulations of a destination country and take necessary procedures.

Follow all manual instructions. Failure to do so could create safety hazards such as fire or electrocution.

Manual instructions must be followed when installing the kit in order to avoid system failure and to ensure proper performance and operation.

Failure to follow manual instructions or any unauthorized modifications, substitution or change to this product will void the limited product warranty.

Turn the power off and disconnect the power cord before installing the RFID module.  
 The print head and stepping motor becomes very hot immediately after printing. Do not touch the print head, stepping motor and around it right after printing, or you may get burned.

When opening the top cover, it must be fully opened. Failure to do this may cause the top cover to close under its own weight, resulting in an injury.

When opening the top cover, it must be fully opened. Failure to do this may cause the top cover to close under its own weight, resulting in an injury.
