NOTE

Using the computer for the first time

The computer is now ready for you to turn it on and begin using it.

Opening the display panel

1

Slide the display latch to the right.

2

Lift the display panel.

Sample opening the display panel

Using the computer for the first time

TECHNICAL NOTE: When your computer is using all of the power provided by the AC adapter to run applications, features, and devices, the recharging of the battery cannot occur. Your computer's Power Saver utility can be used to select a power level setting that reduces the power required for system operation and will allow the battery to recharge. Battery life and charge time may vary depending on the applications, power management settings, and features used.
