Introduction

Welcome to the world of powerful, portable, multimedia computing. With your Toshiba computer, your work and entertainment can accompany you wherever you go.

®

Your computer model may be ENERGY STAR compliant. If the

model you purchased is compliant, it is labeled with the ENERGY
®
STAR

logo on the computer and the following information applies.

Toshiba is a partner in the Environmental Protection Agency's
®
(EPA) ENERGY STAR

Program and has designed this computer

®
to meet the latest ENERGY STAR
guidelines for energy
efficiency. Your computer ships with the power management
options preset to a configuration that will provide the most
stable
operating environment and optimum system performance for
both
AC power and battery modes.

To conserve energy, your computer is set to enter the low-power
Sleep mode which shuts down the system and display within 15
minutes of inactivity in AC power mode. We recommend that
you

leave this and other energy saving features active, so that your
computer will operate at its maximum energy efficiency. You can
wake the computer from Sleep mode by pressing the power
button.

See the "Mobile Computing" section of the Toshiba User's Guide
for more information on using power management settings to
conserve computer energy.
