## Getting Started

---

*Setting up your computer*

## Setting up your computer

Your computer contains a rechargeable high-capacity battery

that needs to be charged before you can use it.

To use external power or to charge the battery, you must attach the AC adapter. See more information.

---

## Setting up your software

The first time you turn on your computer, the Setup Wizard

---

guides you through steps to set up your software.

**1**

From the welcome screen, click Next to enter the Setup Wizard.

**2**

Confirm acceptance of Microsoft's End User License Agreement and click Next.

**3**

Enter the computer name and description and click Next or Skip.

The computer will pause for a moment while checking for an internet connection, and you will see the screen "Checking your internet connectivity."

A window will display the message: "How will this computer connect to the internet?" The system displays three selections: Telephone modem, Digital subscriber line (DSL) or cable, or Local Area Network (LAN).

TECHNICAL NOTE: You must complete all set up steps up to

["Setting up your software" on page 52](#)

or internal components to your computer. These components include, but are not limited to, a mouse, keyboard, printer, memory, and PC cards.

before adding external
