### *Starting a program*

To turn off the cursor control overlay, hold down the  
and press  
keyboard indicator panel goes out.

## Starting a program

The easiest way to start a program is to double-click the name of the file that contains the information you want to work on.

To find the file, use My Computer or Windows Explorer. If you prefer to open the program first, you have four options:

Double-click the icon for the program on your desktop

Use the Start menu

Use Windows Explorer to locate the program file

Use the Run dialog box

The Windows

step-by-step instructions for starting a program from the Start

menu. See

## Saving your work

Before you turn off the computer, save your work to the hard disk drive.

Many programs offer a feature that saves documents at regular intervals, such as every 15 minutes. Check your programs' documentation to see whether they have an automatic save feature.
