Monitoring battery power

3

Click the Battery Power Meter tab.

Sample Toshiba Power Management Battery Power Meter tab

Conserving battery power

How long a fully charged battery lasts when you are using the computer depends on a number of factors, such as:

How the computer is configured

How much you use the display panel instead of an external monitor

How much you use the hard disk and other drives

TECHNICAL NOTE: The computer drains the battery faster at low temperatures. Check your remaining charge frequently if you are working in temperatures below 50 degrees Fahrenheit. The computer calculates the remaining battery charge based on your current rate of power use and other factors such as the age of the battery.
