## Setting up a printer

If you started your computer with a printer connected and turned on, it may have been detected automatically (Plug and Play). If this is not the case, then you must install the printer

driver for the model of printer that is connected to your computer. You install the printer driver either by following

the instructions indicated in your printer manual, or by using

the operating system Add Printer Wizard.

If you plan to set up a printer later, click Cancel.

## **Using the Add Printer Wizard**

To set up a printer with the Add Printer Wizard:

**1**

Click Start, Control Panel, then Printers and Other **Hardware.**

**2**

Select Printers and Faxes.

The Printers and Faxes window appears.

*Sample Printers and Faxes window*

**3**

Click Add Printer.

The Add Printer Wizard starts.

## **Getting Started**

*Setting up a printer*
