Telephone Company Procedures

The goal of the telephone company is to provide you with the best service it can.

In order to do this, it may occasionally be necessary for them to make changes in their equipment, operations or procedures. If these changes might affect your service or the operation of your equipment, the telephone company will give you notice, in writing, to allow you to make any changes necessary to maintain

uninterrupted service.

If Problems Arise

If this equipment causes harm to the telephone network, the telephone company

will notify you in advance that temporary discontinuance of service may be

required. But if advanced notice is not practical, the telephone company will

notify the customer as soon as possible. Also, you will be advised of your right to

file a complaint with the FCC if you believe it is necessary.

If trouble is experienced with this equipment, for repair or limited warranty information, please contact Toshiba Corporation, Toshiba America Information

Systems, Inc. or an authorized representative of Toshiba, or the Toshiba Support

Centre within the United States at (800) 457-7777 or Outside the United States at

(949) 859-4273. If the equipment is causing harm to the telephone network, the

telephone company may request that you disconnect the equipment until the

problem is resolved.

Disconnection

If you should ever decide to permanently disconnect your modem from its present line, please call the telephone company and let them know of this change.

Fax Branding

The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or other electronic device, including Fax machines, to

send any message unless such message clearly contains in a margin at the

top or

bottom of each transmitted page or on the first page of the transmission, the date

and time it is sent and an identification of the business or other entity, or other

individual sending the message and the telephone number of the sending machine or such business, other entity, or individual. (The telephone number

provided may not be a 900 number or any other number for which charges exceed local or long-distance transmission charges.)

In order to program this information into your fax transmission, refer to the fax

software instructions installed on this computer.
