The next three sections explain how to start a program from the Start menu, Explorer, and the Run dialog box.

Starting a program from the Start menu

When you install a program, the operating system usually puts an icon in the All Programs menu. To start a program that has an icon in the All Programs menu, follow these

steps,
which use the Windows

1

Click Start, then point to All Programs.

The Windows

Programs menu, which lists programs and program groups. If your program is listed, go to step 3, otherwise, continue with step 2.

2

Point to the program group, in this example, Accessories. The Accessories menu displays.

3

Click the program, in this example, WordPad.

WordPad opens.

To close the program, click the Close button in the upper-right corner of the program's window.

Starting a program from Windows

If a program is not listed in the Programs menu, you can start

it from Windows

view of your computer's contents as a hierarchy or "tree."

You can easily see the content of each drive and folder on your computer. To use this method, you should know the file

name and location of the program's executable file (this file

ends with .exe).

This example opens WordPad using its file name, *wordpad.exe*.

1

Click Start, then point to All Programs.

2

Click Accessories.
