Wireless Technology and Your Health

The products with Bluetooth

radio frequency electromagnetic energy. The level of energy emitted by devices

with Bluetooth wireless technology however is far much less than the electromagnetic energy emitted by wireless devices like for example mobile phones.

Because products with Bluetooth wireless technology operate within the guidelines found in radio frequency safety standards and recommendations, TOSHIBA believes Bluetooth wireless technology is safe for use by consumers.

These standards and recommendations reflect the consensus of the scientific community and result from deliberations of panels and committees of scientists

who continually review and interpret the extensive research literature.

In some situations or environments, the use of Bluetooth wireless technology may be restricted by the proprietor of the building or responsible representatives

of the organization. These situations may for example include:

®

Card from Toshiba equipment is approved to the radio standard by the

Do not use this equipment except in the countries/regions in the following table.

Austria
 Canada
