Getting Started

Setting up your computer

Setting up your computer

Your computer contains a rechargeable main battery that needs to be charged before you can use it.

To use external power or to charge the battery you must attach the AC adaptor. See

Setting up your software

NOTE

The first time you turn on your computer, the Setup Wizard guides you through steps to set up your software.

1

From the Welcome screen click Next to enter the Setup Wizard.

2

Confirm acceptance of Microsoft's End User License Agreement and click Next.

3

Enter your desired user name and password, choose a picture to be associated with your user account, and then click Next.

4

Enter the computer name and description and click Next.

5

Click the appropriate option from the Help Protect Windows Automatically screen.

6

Follow the remaining screen prompts to complete the setup process.

7

Click Start when the Thank You message appears.

The Windows

performance, and then restarts your computer.

TECHNICAL NOTE: You must complete all setup steps up to and including

["Setting up your software" on page 40](#)

external or internal components to your computer. These components include, but are not limited to, a mouse, keyboard, printer, memory, and PC Cards.

["Connecting to a power source" on page](#)

When you turn on the computer for the first time, do not turn off the power again until the operating system has loaded completely. The names of windows displayed, and the order in which windows appear, may vary according to your software setup choices.

®

operating system checks the system's
before adding

42.
