## Getting Started

---

*Using the Dual Mode Pad*

## **Using the Dual Mode Pad** **(Available on certain models)**

### **Using Dual Mode**

The Dual Mode feature allows you to switch between Cursor

Mode

(the default mode) and Button Mode.

In Button Mode, you can use the virtual buttons on the Dual Mode Pad which provide convenient shortcuts to frequently used applications. You can also use the volume control bar to adjust the system volume quickly and easily.

### Using the Virtual Buttons

The Dual Mode Pad has six virtual buttons and a volume control bar. Each virtual button can be configured to start an application. The volume control bar is used to adjust the system volume level.

### NOTE

The virtual buttons at the top of the Dual Mode Pad have the following default settings:

Left button: Opens the assigned email application

Middle button: Opens the ConfigFree utility (see the Toshiba online Help for more information)

Right button: Opens the Windows

The other three virtual buttons have no default settings. You must configure these buttons in the Mouse Properties dialog box before they can be used.

Activating the Dual Mode Pad will deactivate an external mouse.
