## Hot Keys/TOSHIBA Cards

---

*Hot key functions*

### Output (Display switch)

or  
Fn  
+

This TOSHIBA Card or hot key cycles through the power-

on display options (only the first option is available when you do not have an external monitor attached) (the last option is available only if you are in Extended Display Mode).

## NOTE

Built-in display only

Built-in display and external monitor simultaneously

External monitor only

TV (or other external video device) only

Built-in display and TV (or other external video device) simultaneously

Built-in display and external monitor (extended desktop)

Built-in display and TV (extended desktop)

Swap—Switch primary display between internal display and external monitor when using extended desktop

To use a simultaneous mode, you must set the resolution of the internal display panel to match the resolution of the external display device.

Selecting this Card or pressing the hot key displays the following options:

*(Sample Image) Display mode options window*

Some modes are only available with the appropriate device attached and turned on.
