NOTE

Display brightness

+

Fn

+

Fn

Cycle through the display modes, then select the desired mode.

Not all functions are supported on all models.

Some systems also support an additional Swap Image Display mode. This mode is available only if the current setting is an extended desktop mode (Built-in Display and External Monitor, or Built-in Display and TV). In extended desktop mode, the image is split into two sides, one side per display device. To swap sides, select Swap Image Display.

This TOSHIBA Card decreases or increases the screen brightness.

This hot key decreases the screen brightness.

This hot key increases the screen brightness.

Selecting this Card or pressing either hot key displays the following options:

(Sample Image) Display brightness

Move the slider or press the appropriate hot key repeatedly to decrease or increase the display brightness.
