Starting a program from the Start menu

When you install a program, the operating system usually puts an icon in the All Programs menu. To start a program that has an icon in the All Programs menu, follow these steps, which use the Windows

1

Click Start, and then All Programs.

The Windows

menu, which lists programs and program groups. If your

program is listed, go to step 3, otherwise, continue with step 2.

NOTE

2

Click the program group, in this example, Accessories.
The Accessories menu is displayed.

3

Click the program, in this example, WordPad.
WordPad opens.

To close the program, click the Close button in the upper-right corner of the program's window.

Starting a program from Windows

If a program is not listed in the All Programs menu, you can start it from Windows

your computer's contents as a hierarchy or "tree." You can easily see the contents of each drive and folder on your computer. To use this method, you should know the file name and location of the program's executable file (this file ends with .exe).

This example opens WordPad using Windows

1

Click Start, and then All Programs.

NOTE

2

Click Accessories.

3

Click Windows Explorer.

4

In the left part of the window, double-click Computer to expand the window.

®

WordPad program as an example:

ManualsLib.com

®

operating system displays the All Programs

If you pause with your mouse on All Programs, it will open it up. You may need to scroll up or down to see the complete list.

®

Explorer. Windows

If you pause with your mouse on All Programs, it will open it up. You may need to scroll up or down to see the complete list.
