2

Click Start, All Programs, Accessories, and then Sound Recorder.

(Sample Image) Sound Recorder screen

3

Click the Start Recording button.

4

Speak normally into the microphone.

5

When you have finished recording, click the Stop Recording button.

The Save As dialog box appears.

6

To save the file, type a file name, and then click Save.

Using external speakers or headphones

Your computer is equipped with a full stereo sound system with internal speakers. Instead of using the internal speakers, you can connect headphones or a pair of external stereo speakers.

To play back sound files through external speakers or headphones:

1

Locate the headphone jack on the computer.

2

Using any necessary adapters, plug the cable from the headphones or external speakers into the headphone jack. The headphone jack requires a 16-ohm stereo mini-jack.

To adjust the volume:

For external speakers, use the volume controls on each speaker.

For headphones, use the computer's volume control.

Exploring Your Computer's Features

Start Recording/Stop Recording button

Before putting on headphones to listen, turn the volume down. Do not set the volume too high when using headphones. Continuous exposure to loud sound can harm your hearing.

CAUTION

TECHNICAL NOTE: When using amplified speakers, use speakers that require an external power source. Other types of speakers will be inadequate to produce sound from the computer.
