*ConfigFree*®

The recognition success rate may differ from user to user.

Toshiba does not guarantee that this fingerprint recognition

technology will be error-free.

Toshiba does not guarantee that the fingerprint reader will recognize the enrolled user or accurately screen out unauthorized

users at all times. Toshiba is not liable for any failure or damage that might arise out of the use of this fingerprint recognition software or utility.

®

## ConfigFree

### NOTE

ConfigFree

communication devices and network connections. ConfigFree also

lets you identify communication problems and create profiles for easy switching between locations and communication networks.

### NOTE

The ConfigFree utilities include the following:

Connectivity Doctor—The Connectivity Doctor utility is used to analyze network connections and fix networking problems with your computer. For more information, see

["Connectivity Doctor" on page](#)

Profile Settings—The Profiles utility lets you switch between network configurations. For more information, see

["Profile Settings" on page](#)

## Getting Started

This section contains information about the ConfigFree screen, and how to start and set up ConfigFree.

For more detailed information on setting up and using ConfigFree, see the Help File included in the application.
