7

Click Apply.

8

Click OK.

Once the computer is configured, you can place it into Sleep mode by either pressing the power button or closing the display panel, depending on the Sleep options set.

Starting again from Sleep mode

To start up the computer from Sleep mode, press the power button

until the ON/OFF light glows green. The computer returns to the screen(s) you were using.

If you place the computer in Sleep mode by closing the display panel, you can start it again by opening the display panel.

Closing the display panel

After you have turned off the computer, close the display panel to keep dust and dirt out of the computer.

Customizing your computer's settings

There are several ways in which you can customize your computer to suit your particular requirements. Refer to your operating system

documentation or Help and Support for details.

You may also wish to customize your power usage settings. For more information, see

additional custom settings you can choose. See

[page](#)

140.

Caring for your computer

This section gives tips on cleaning and moving your computer.

For

information about taking care of your computer's battery, see

["Taking care of your battery" on page](#)

NOTE

Customizing your computer's settings

["Power Plans" on page](#)

Please handle your computer carefully to avoid scratching or damaging the surface.

Getting Started

115. There are
"Utilities" on

120.
