## Adjusting the picture quality

You can adjust the picture quality to your personal preferences, including the contrast, brightness, color, tint, and sharpness. The qualities you choose will be stored automatically in your TV's memory so you can recall them at any time.

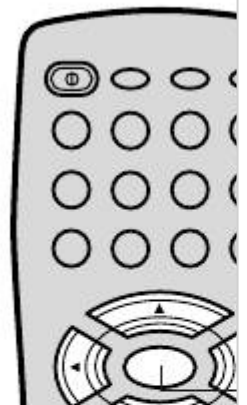

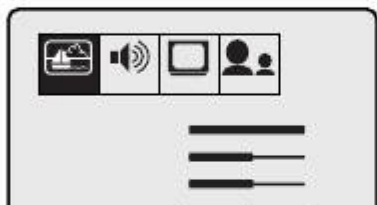

To adjust the picture quality:

1. Press MENU, then press

CH

AUDIO  
SETUP  
OPTION

4. Press EXIT to return to normal viewing.

## Watching video input

You can use the TV/VIDEO button on the remote control to view a signal coming from other devices, such as VCRs or video disc players that may be connected to your TV. (See "Connecting your TV" on page 7.)

## Selecting the ColorStream

You can use the ColorStream (component video) input for connecting either a DVD player or a DTV receiver.

1. Press MENU, then press  
the OPTION menu appears.

2. Press

or

to highlight  
COLORSTREAM.

3. Press

or

to highlight DVD or  
DTV, depending on which device is  
connected.

4. Press EXIT to return to normal viewing.

Note:

The factory setting is DVD.

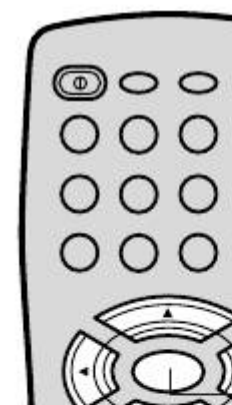

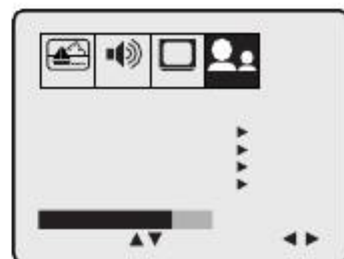

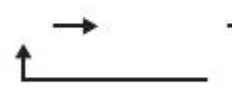

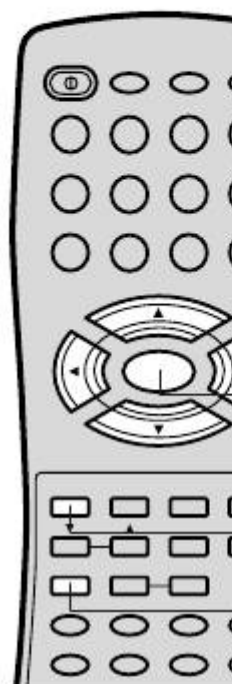

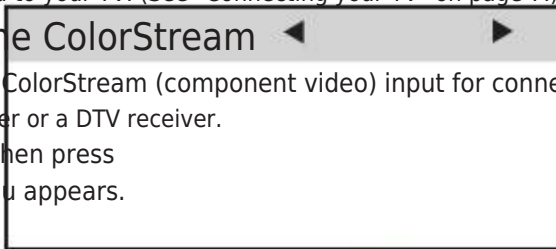

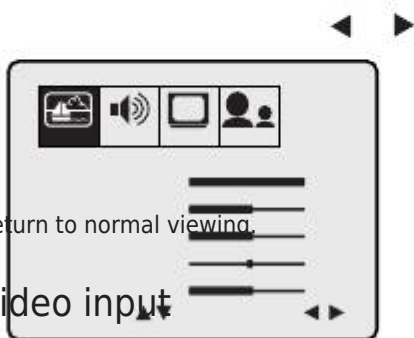

## Displaying on-screen information

Press RECALL to display the following on-screen information:

- Clock
- Channel number or VIDEO mode selected
- Channel label (if preset)
- Stereo or SAP (second audio program) audio status
- Content rating

or

to display the PICTURE menu.
