Page 3: Safety Precautions

SAFETY PRECAUTIONS CAUTION: This Blu-ray Disc™/DVD player employs a Laser System. To ensure proper use of this product, please read this User's Guide carefully and retain for future reference. Should the unit require maintenance, contact an authorized service location. Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

Page 4: Additional Safety Instructions

ADDITIONAL SAFETY INSTRUCTIONS 15. Do not overload wall outlets; extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock. 16. Never expose the apparatus to dripping or splashing or place items such as vases, aquariums, any other item filled with liquid, or candles on top of the unit.

Page 5: Notes On Handling

Wireless Radio For product available in the USA/Canada market, only channel 1- 11 can be operated. Selection of other channels is not possible. The device could automatically discontinue transmission in case of absence of information to transmit, or operational failure. Note that this is not intended to prohibit transmission of control or signaling information or the use of repetitive codes where required by the technology.

AUDIO CONNECTED DISPLAY Installing the batteries Install the batteries (AAAx2), matching the polarity indicated inside battery compartment of the remote control. 1 Open the battery cover. (Sample Illustration) Remote control - Opening the battery cover 2 Insert batteries.

Page 14: Using The Remote Control

Remote control buttons (Sample Illustration) Remote control - inserting the batteries 3 Replace the battery cover. Always dispose of used batteries in compliance with your local government. Never throw batteries into a fire. Do not mix different battery types or combine used batteries with new ones. If the remote control does not operate correctly, or if the operating range is reduced, replace both batteries with new ones.

Page 15: Blu-Ray Disc™/Dvd Player Connections

Do not drop or expose the remote control to electric shock. Do not expose the remote control excessively hot or humid places. Do not spill water or place anything wet on the remote control. Do not open the remote control. If the remote control is not going to be used for a long period of time, remove the battery to avoid damage caused by battery leakage corrosion.

Page 16: Connecting To A Network

❖ By connecting through a wireless LAN adaptor and a wireless access point or router (for BDX2300KU/BDK23KU model). ❖ By connecting through the built-in wireless device and a wireless access point or router (for BDX3300KU and BDK33KU models).

Page 17

Connecting via wireless access point or router - for BDX2300KU and BDK23KU models Your Blu-ray Disc™/DVD player can also be connected to a network via Wireless access point. ® USB Wi-Fi This unit is compatible with TOSHIBA's USB Wi-Fi WLM-12NB1.

Page 18: Connecting A Usb Flash Drive

Blu-ray Disc™/DVD player connections (Sample Illustration) Connecting to a wireless router You must use a wireless IP sharer that supports IEEE 802.11 a/b/g/n. (n is recommended for stable operation of the wireless network.) Wireless LAN, in its nature, may cause interference, depending on the use condition (AP performance, distance, obstacle, interference by other radio devices, etc.).

Page 19: Blu-Ray Disc™ Playback

USB port. For additional information regarding the access to BD-Live™, see page 37 of the manual. TOSHIBA does not guarantee 100% compatibility with all USB flash drives. If you want to enjoy BD-Live™ bonus content, you should connect a USB flash drive to the USB port, and an Ethernet cable to the Ethernet jack on the back of your player and to an Ethernet jack on a hub or broadband router.

Page 20

Blu-ray Disc™ playback Logos: Playable files: AVCHD™ Windows Media™ Audio JPEG This player cannot play back disc content that is protected by Windows Media™ Digital Rights Management (DRM). Un-playable discs and files The following disc types will not play back in this player. ❖...

Page 21: Region Codes

Region codes This player has been designed to play back BD-video with region “A” and DVD-video with region “1” or “ALL.” You cannot play back BD-video or DVD-video that are labeled for other regions. Look for the symbols on your BD-video or DVD-video. If these region symbols do not appear on your BD-video or DVD-video, you cannot play back the disc in this player.

Page 22: Basic Playback

Blu-ray Disc™ playback Data discs or USB flash drives containing MP3/WMA/JPEG are divided into folders, and the folders are subdivided into files. Folder (group) 1 File 1 File 2 (Sample Illustration) Data disc/USB file structure Basic playback When you wish to view a disc, turn the TV On and select the video input connected to the Blu-ray Disc™/DVD player.

Page 23: Variable Speed Playback

❖ DVDs/audio CDs: It will enter the stop mode. Press the PLAY (playback begins where it stopped or at the beginning of the disc. 9 During DVD/audio CD playback, if you press the STOP ( ) button twice, playback stops completely and the home menu appears.

Page 24 Blu-ray Disc™ playback Locating a desired section Normally, Blu-ray™ Discs and DVDs are divided into titles, and the titles are sub-divided into chapters. Audio CDs are divided into tracks. You can quickly locate any specific title, chapter, or track. Locating a title using TOP MENU / POP UP/MENU 1 Press the TOP MENU / POP UP/MENU button.

Page 25 Locating a specific chapter 1 During playback, press GOTO button and use the (the chapter, then press the OK button. (Sample Illustration) Locating a specific chapter 2 Press the ( ) arrow buttons or the corresponding number buttons (0-9) for the chapter you want.

Page 26 Blu-ray Disc™ playback (Sample Illustration) Selecting various repeat modes The repeat setting will be cancelled when you stop playback. The chapter, title or track repeat will be cleared when moving to another chapter, title, track / file. Chapter and title repeat are not available with some scenes. Repeating a specific segment 1 Press the A-B button at the desired starting point A during playback.

Page 27: Camera Angle

Not all discs are available for PIP and 2nd Audio. It only applies to Blu-ray™ Discs that support picture-in-picture features and 2nd Audio. Camera angle Some BD-video and DVD-video contain scenes that have been shot simultaneously from various angles. 1 Press the ANGLE button during playback. The selected angle is displayed on the display bar at the top of the TV screen.

Page 28 Blu-ray Disc™ playback (Sample Illustration) DVD Program display (Sample Illustration) CD Program display 2 Press the OK button and the TT (Title) is highlighted. Then press the (the corresponding number buttons to enter the Title (TT) (for DVD movie) or Track number (for audio CD).

Page 29: Digest Playback

Some discs may not permit memory playback. The programmed selections will be cleared when you open the disc tray or turn off the unit. If you press the PROGRAM button while the display appears on the TV screen, the display disappears.

Page 30 Blu-ray Disc™ playback 3 Press the OSC button again to exit. Displaying on-screen information Press the DISPLAY button: Your unit displays information about the Disc, such as type of disc, title number, chapter number, elapsed time of the current title, audio format, subtitle language. Press the DISPLAY button again to exit.

Page 31 (Sample Illustration) BD-video (Sample Illustration) DVD-video/AVCHD™ (Sample Illustration) CD (Sample Illustration) MP3/WMP (Sample Illustration) JPG Playing AVCHD™/MP3/WMA/JPEG files You can play AVCHD™, MP3, WMA or JPEG files that have been recorded on a disc or a Media Server on the Blu-ray Disc™/DVD player. Playing files on a data disc When inserting a data disc containing pictures, music, or video files into your player, icons are added to the menu to indicate that video, music, or picture files are available for playback.
