More

Disposal

Dispose of any batteries, disused accessories and packaging in order that they can be recycled in an environmentally-friendly way.

only for Ec countries: Do not dispose of any used batteries with household waste!

In accordance with the provisions of Directive 2002/96/EC on waste electrical and electronic

equipment (WEEE) and its transposition into national law, spent batteries should be collected separately and reused ecologically.

limitations of use

The appliance is not designed to be used by persons (including children) with limited physical, sensory or mental capabilities, or by anyone with a lack of experience or knowledge, unless the same are supervised and instructed when using the appliance by a person responsible for their safety. Children must be supervised to ensure that they do not play with the appliance.

replacing the Batteries

- The batteries should only be replaced with new batteries of the same type as those listed in this manual.
- Before replacing the batteries, turn off the control unit by disconnecting the power supply.
- Make sure that the polarity of the batteries and connectors match.
- Dispose of any replaced batteries according to current regulations.
