## Water and Ice Dispenser Controls

A. Ice/Water dispenser paddle

Press Ice/Water to toggle through the following choices in a continuous loop:

- ◆ Water (default) - Dispenses water.
- ◆ Cubed - Dispenses cubed ice.
- ◆ Crushed - Dispenses crushed ice.

### TO DISPENSE WATER (STANDARD)

1. Select water.

2. Press a sturdy glass against the water dispenser paddle.

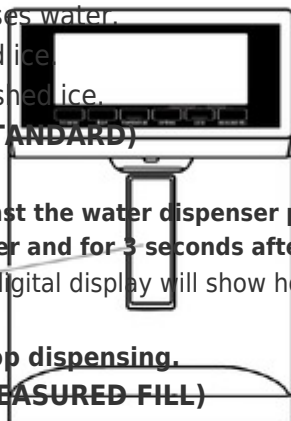

**NOTE:** While dispensing water and for 3 seconds after dispensing has stopped, the digital display will show how much water has been dispensed.

3. Remove the glass to stop dispensing.

### TO DISPENSE WATER (MEASURED FILL)

Measured Fill allows you to dispense a specified amount of water

in the container, you may need to adjust your selection. Household water pressure may affect the accuracy of the Measured Fill feature. For optimum performance of your water dispenser, you must first calibrate Measured Fill. For best results, calibration should be performed when water is not being used in the house.

### How to calibrate Measured Fill:

**IMPORTANT:** Flush the water system before calibrating Measured Fill.

1. Place a sturdy measuring cup (1-cup [237 mL] size) on the dispenser tray centered in front of the ice/water dispenser paddle.

**NOTE:** Depending on your model, a measuring cup may be provided.

2. Press and hold the Options and Lock buttons at the same time for 3 seconds. The words "Back" and "1 Cup" will appear on the display screen. Also, the Calibrate Measured Fill icon will

illuminate and remain lit while the Measured Fill feature is being calibrated.

**NOTE:** You may press Ice Type "Back" at any time to exit calibration mode. The Calibrate Measured Fill icon will disappear.

3. Press and release the water dispenser paddle, as needed, to dispense water to the 1 cup fill line.

**NOTE:** If overfilling or spilling occurs, discard the water and press "Back" to restart the calibration process.

4. Press Measured Fill to turn on the feature. When the feature is on, the Measured Fill screen appears on the display.

When Measured Fill calibration has been confirmed, the Calibration icon will disappear and the display will return to the home screen.

### TO DISPENSE WATER (STANDARD)

1. Press Measured Fill to turn the feature on. When the feature is on, the Measured Fill screen appears on the display. Press Ice/Water "Back" to manually turn off the Measured Fill feature.

2. Press a sturdy glass against the water dispenser paddle.

**NOTE:** While dispensing water and for 3 seconds after dispensing has stopped, the digital display will show how much water has been dispensed.

3. Remove the glass to stop dispensing.

### TO DISPENSE WATER (MEASURED FILL)

2. You can dispense water by the ounce, cup, or liter. The default unit is ounces. To switch to cups or liters, press the light button with the touch pad.

**NOTE:** The amount of water you select will be dispensed. Be sure that the container is empty and can hold the entire volume. If ice is

in the container, you may need to adjust your selection.

### Default

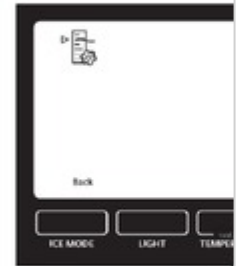

Household water pressure may affect the accuracy of the Measured Fill feature. For optimum performance of your water dispenser, you must first calibrate Measured Fill. For best results, calibration should be performed when water is not being used in the house.

### How to calibrate Measured Fill:

**IMPORTANT:** Flush the water system before calibrating Measured Fill.

Liters	0.25

3. Press the Lock and Option desired. The Lock button in

desired. The Lock button increases the volume, and the Options button lowers the volume.

## French Door Bottom Mount Dispensing and Storage Guide

**NOTE:** Most coffee cups (commonly 4 to 6 oz [118 to 177 mL])

per cup) are not the same size as a measuring cup (8 oz [237 mL]). You may need to adjust the volume to avoid unintentionally overfilling coffee cups.

When increasing or decreasing the dispense volumes, if an adjustment button (-/+ ) is held for approximately 10 seconds or longer the control may stop responding. Release the button for approximately 2 seconds and then continue making the adjustment.
