This service manual is intended for use by service technicians with
and [REDACTED]
training to this model air conditioner. This manual is written both for
experienced service
persons and those who are new to air conditioning service. To help those with
less
experience or who are new to this kind of unit we have included more explanations
of
basic procedures in simple language than is usual in some service manuals.
The experi-

enced technician will of course find he knows many of these things already and can go directly to the technician.

better understand what to do even before he arrives on the job, and therefore be better able to work by himself as well as assist the more experienced technician.

1. SPECIFICATIONS	I
- 1	
1-1 Unit Specifications	I -
2	
1-2 Major Component Specifications	I -
34	
(A) Indoor Units	I - 34
