[Page 46: Location Settings](#)

Location Settings Your phone is equipped with a Location feature which will allow the network to detect your position, making some applications easier to use. Turning Location off will hide your

location from everyone except 911. Note: Even if the Location feature is enabled, no service may use your location without your expressed permission.

[Page 47: Messaging Settings](#)

Messaging Settings Setting Message Notification You can set your phone to display an icon and message notification or just display an icon notification when you receive a text message, picture message, voicemail, or Web Alert. 1. Press to access the main menu. 2.

[Page 48: Editing Canned Messages](#)

Editing Canned Messages Your phone can store canned messages for use with text messaging. You can edit your phone's default canned messages through the Settings menu. To edit a canned message: 1. Press to access the main menu. 2. Select Settings. 3.

[Page 49: Setting Your Callback Number](#)

Setting Your Callback Number With this feature, you can send a callback number with your text message. 1. Press to access the main menu. 2. Select Settings. 3. Select Messaging. 4. Select Send Callback#. 5. Select an option from the following. None to send no callback number.

[Page 50: Tty Use](#)

TTY Use A TTY (also known as a TDD or Text Telephone) is a telecommunications device that allows people who are deaf or hard of hearing, or who have speech or language disabilities, to communicate via a telephone. Your phone is compatible with select TTY devices. Please check with the manufacturer of your TTY device to ensure that it supports digital wireless transmission.

[Page 51: Airplane Mode](#)

Airplane Mode When your phone is in Airplane mode, it cannot send or receive any calls (except for 911 dialing) or access online information. You may still use the phone's other features, such as Voice Memo, Calculator, Calendar, etc., while you are in Airplane mode. 1.

[Page 52: Phone Setup Options](#)

Phone Setup Options My Favourites Your phone offers you the option of assigning a shortcut key to a favourite or often-used function. Pressing the navigation key left in standby mode will launch your user-defined shortcut. To assign your shortcutkey: 1. Press the navigation key left. 2.

[Page 53: Auto Answer Mode](#)

Auto Answer Mode This feature sets the phone to automatically pick up incoming calls in speakerphone mode or car kit/headset mode (when connected). 1. Press to access the main menu. 2. Select Settings. 3. Select Others. 4. Select Auto Answer. 5.

[Page 54: Setting Any Key Answer](#)

Setting Any Key Answer This feature allows you to answer incoming calls by pressing any key (except , softkeys, and sidekeys). 1. Press to access the main menu. 2. Select Settings. 3. Select Others. 4. Select Any Key Answer. 5. Select On or Off. **Setting the Open/Close Flip Option** This feature enables you to answer an incoming call by opening the flip or to end a call by closing the flip.

[Page 55: Setting The Side Key Guard](#)

Setting the Side Key Guard This feature enables you to lock the side keys while the flip is closed. 1. Press to access the main menu. 2. Select Settings. 3. Select Others. 4. Select Side Key Guard. 5. Select On or Off. Note: This feature does not apply when the flip is open.

[Page 56: Setting Abbreviated Dialing](#)

Setting Abbreviated Dialing To activate this feature: 1. Press to access the main menu. 2. Select Settings. 3. Select Others. 4. Select Abbrev. Dial. 5. Select Ph. Book Match. 6. Select Enable. To set your prepend number: 1. Follow steps 1-4 above. 2.

[Page 57: Headset Mode](#)

Headset Mode This feature allows you hands-free phone use. Set the headset mode to Voice Call and press the Turbo Button (the operation button) on the headset to activate useful functions. To connect the headset: Simply plug the headset into your phone's headset jack. To set headset mode: 1.

[Page 58: Security](#)

3. Security Accessing the Security Menu You must enter your lock code to view the Security menu. 1. Press to access the main menu. 2. Select Settings. 3. Select Security. 4. Enter your lock code. Tip: If you can't recall your lock code, try using the last four digits of your phone number or 0000.

[Page 59: Lock Services](#)

Lock Services With this feature, you can choose to restrict access to the Internet, incoming and outgoing voice calls, and 10-4 calls. 1. From the Security Menu, select Others. 2. Select Lock Services. 3. Select Voice Calls, Internet, or 10-4. 4.

[Page 60: Restricting Calls](#)

Restricting Calls You can restrict phone numbers your phone dials or receives. 1. From the Security Menu display (See "Accessing the Security Menu" on page 50), select Others. 2. Select Limit Use. 3. Select Outgoing Calls or Incoming Calls. 4. Select your desired option. Allow All: You can make or receive all calls.

[Page 61: Erasing The Contacts Directory](#)

Erasing the Contacts Directory 1. From the Security Menu display (See "Accessing the Security Menu" on page 50), select Erase Ph. Book. 2. Press (left softkey) to continue. 3. If you're sure you want to erase your Contacts, select Yes. Erasing the Contents 1.

[Page 62: Roaming](#)

4. Roaming Understanding Roaming Recognizing Icons on the Display Screen Your phone's display screen always lets you know when you're off the home network and whether your phone is operating in analog or digital mode. The following chart indicates what you'll see depending on where you're using your phone.

[Page 63: Setting Your Phone's Roam Mode](#)

Note: If you're on a call when you leave the home network and enter an area where roaming is available (whether digital or analog), your call is dropped. If your call is dropped in an area where you think service is available, turn your phone off and on again to reconnect to the home network.

[Page 64: Menu Navigation](#)

5. Menu Navigation Viewing the Menus Menu Diagram Menus let you check or change your phone settings. The following outline shows your phone's menu structure. 1. Call History 1. Outgoing 2. Incoming 3. Missed 4. Erase History 2. Contacts 1. Find/Add Entry 2.

[Page 65](#) 6. Settings 1. Sounds 2. Display 3. Internet 4. 10-4 5. Location 6. Roaming 7. Messaging 8. Security 9. Others 0. Phone Info 7. Tools 1. Alarm Clock 2. Calculator 3. Stop Watch 4. World Clock 8. Voice Services 1. Voice Memo 2.

[Page 66: Managing Call History](#)

6. Managing Call History Viewing History You'll find the Call History feature very helpful. It is a list of the last 20 phone numbers (or Contacts entries) for calls you placed, accepted, or missed. Call History makes redialing a number fast and easy.

[Page 67: Call History Options](#)

Call History Options For additional information and options on a particular call, highlight a Call History entry and press (right softkey). Options Call to dial the phone number. Call:Speaker On to dial the phone number in speakerphone mode. Send Text to send a text message. See page 107 for details. Save Phone# to save the phone number (if applicable).

[Page 68: Saving A Phone Number From Call History](#)

Saving a Phone Number From Call History 1. Press to access the main menu. 2. Select Call History. 3. Select Outgoing, Incoming, or Missed. 4. Highlight the call history entry you want to save. 5. Press (right softkey) to display the options. Options 6.

[Page 69: Prepending A Phone Number From Call History](#)

Prepending a Phone Number From Call History If you need to make a call from Call History and you happen to be outside your local area code, you can add the appropriate prepending by following these steps: 1. Press to access the main menu. 2.

[Page 70: Contacts Directory](#)

7. Contacts Directory Displaying the Contacts List Press the navigation key right. – or – 1. Press to access the main menu. 2. Select Contacts. 3. Select Find/Add Entry. Adding a New Contacts Entry Your phone can store up to 300 Contacts entries. Contacts entries can store up to a total of 500 phone numbers and each entry's name can contain 16 characters.

[Page 71: Finding Contacts List Entries](#)

Finding Contacts List Entries There are several ways to display your Contacts entries: by name, by speed dial number, by 10-4 list, and by voice tags. Follow the steps outlined in the sections below to display entries from the Contacts list menu. Finding Names To find Contacts list entries by name: 1.

[Page 72: Contacts List Entry Options](#)

Finding Speed Dial Numbers 1. Press to access the main menu. 2. Select Contacts. 3. Select Speed Dial #s. (The Speed Dial numbers list appears.) Finding Voice Dial Numbers 1. Select to access the main menu. 2. Select Voice Services. 3.

[Page 73: Editing A Contacts Entry](#)

Editing a Contacts Entry 1. Press the navigation key right. 2. Select the entry you wish to edit. 3. Highlight a phone number, press (right softkey), Options select Edit. – or – Highlight an email address or Web address and press Edit (right softkey).

[Page 74: Assigning Speed Dial Numbers](#)

Assigning Speed Dial Numbers With this feature you can dial Contacts Directory entries with one key press for locations 2-9. Save your memory locations 2-9 for speed dialing your most commonly used phone numbers. Speed Dial numbers must be stored in your Contacts to use this feature. To set Speed Dial: 1.

[Page 75: Selecting A Ringer/Image Type For An Entry](#)

Selecting a Ringer/Image Type for an Entry You can assign a ringer/image type to a Contacts entry so you can identify the caller by the ringer or image type. To select a ringer type for an entry: 1. Press the navigation key right. 2.

[Page 76: Secret Contacts Entries](#)

Secret Contacts Entries You can hide an entry's phone number(s) by making them secret, which requires your lock code to edit the entry. The entry name is still displayed, but the entry's phone numbers are replaced by "<Secret>". 1. Press the navigation key right. 2.

[Page 77: Personal Organizer](#)

8. Personal Organizer Managing Schedules Calendar Use the Calendar to remind you of events or important calls you need to make. You can schedule up to 100 events, 15 Call Alarms and 20 To Do Items. Displaying Your Calendar 1. Press to access the main menu.

[Page 78: Event Alerts](#)

6. Select the following items: From Scheduling the start time. To Scheduling the end time. Location Editing the location of your event (up to 14 characters). Alarm Select the ringer you wish to set. Alarm Time Editing the alarm time (number of hours or minutes before the event starts).

[Page 79: Event Alert Menu](#)

Event Alert Menu When you have an event alarm scheduled, your phone alerts you and displays the event summary. 1. Press (left softkey) to silence the alarm and see the View unchecked event list. 2. Select the unchecked event to see the event details or press (right softkey) for the following options.

[Page 80: Adding A Call Alarm To The Scheduler](#)

Adding a Call Alarm to the Scheduler 1. From the Calendar display, select the day you want to add an event by using the navigation key. 2. Press (right softkey) to display the options. Options 3. Select Add Event. 4. Select Call Alarm. 5.

[Page 81: Call Alarm Menu](#)

Call Alarm Menu When you have scheduled a call alarm, your phone alerts you and displays the name or phone number. 1. Press (left softkey) to silence the alarm and see the View unchecked event list. 2. Select the unchecked call alarm to see the call alarm details, or press (right softkey) for following options.

[Page 82: Editing An Event Or Call Alarm](#)

Editing an Event or Call Alarm 1. From the Event list display, select one of the events or call alarms. 2. Select the box under each item you want to edit. 3. Enter or select a new setting and press 4.

[Page 83: Adding To Do Items](#)

Adding To Do Items Your phone can store and manage 20 To Do items. 1. From the Calendar display, press (right softkey). Options 2. Select To Do List. 3. Press (right softkey). Options 4. Select Add Item. 5. Enter the description and press (up to 14 characters).

[Page 84: Adding A To Do Item To The Schedule](#)

Adding a To Do Item to the Schedule 1. From the To Do List display, highlight the item you want to add to schedule and press (right softkey). Options 2. Select Add To Schedule. Add To Schedule copies the item from the To Do list and makes it a scheduled event.

[Page 85: Viewing Used And Free Memory In Your Scheduler](#)

Viewing Used and Free Memory in Your Scheduler 1. From the Calendar display, press (right softkey). Options 2. Select View Memory. 3. Select Schedule, Call Alarm, or To Do List. Purging All Events, Call Alarms or To Do List Items 1.

[Page 86: Finding Icon Definition](#)

Finding Icon Definition 1. Press to access the main menu. 2. Select Settings. 3. Select Phone Info. 4. Select Help. 5. Select the item for which you want to see the explanation. Displaying the Version Information 1. Press to access the main menu. 2.

[Page 87: Using Your Phone's Tools](#)

Using Your Phone's Tools Setting the Alarm Clock To set the alarm clock: 1. Press to access the main menu. 2. Select Tools. 3. Select Alarm Clock. 4. Press (left softkey) to continue. Continue 5. Select the box under the following items. Alarm to set the alarm On or Off.

[Page 88: Using The Calculator](#)

Using the Calculator 1. Press to access the main menu. 2. Select Tools. 3. Select Calculator. 4. Enter numbers using your keypad. Press the left softkey to insert a decimal point. 5. Press the appropriate navigation key for an arithmetic option. (Up for addition, Down for subtraction, Left for multiplication, Right for division) 6.

[Page 89: Using The Stop Watch](#)

Using the Stop Watch To start the stop watch: 1. Press to access the main menu. 2. Select Tools. 3. Select Stop Watch. Press (left softkey) to start the stop watch. Start Press (left softkey) to stop the stop watch. Stop Press (left softkey) to start the stop watch again.

[Page 90: Voice Services](#)

9. Voice Services Using Voice-Activated Dialing You can use a Voice Dial tag to automatically dial a phone number in your Contacts list. Your phone can store up to 30 Voice Dial tags. Note: Please set the Voice Prompt feature (see page 29) to on before using the Voice-Activated Dialing so that you can hear the voice instruction from the phone.

[Page 91: Reviewing Voice Dialing Tags](#)

8. Select the phone number you want to program. (The display shows "Voice Dial Recorded".)
Note: Record Voice Dial tags in a quiet environment and without the aid of an accessory.

Reviewing Voice Dialing Tags 1. Press to access the main menu. 2.

[Page 92: Managing Voice Memos](#)

[Page 132: 13. Safety Guidelines](#)

13. Safety Guidelines Maintaining Your Phone's Peak Performance Try not to hold, bend, or twist the phone's antenna. Don't use the phone if the antenna is damaged. Avoid exposing your phone and accessories to rain or liquid spills. If your phone does get wet, turn the power off and immediately remove the battery.

[Page 133: Using Your Phone Near Other Electronic Devices](#)

Using Your Phone Near Other Electronic Devices Most modern electronic equipment is shielded from radiofrequency (RF) signals. However, RF signals from wireless phones may affect inadequately shielded electronic equipment. RF signals may affect improperly installed or inadequately shielded electronic operating systems and/or entertainment systems in motor

vehicles.

[Page 134: Turning Off Your Phone In Dangerous Areas](#)

Turning Off Your Phone in Dangerous Areas To avoid interfering with blasting operations, turn your phone off when in a blasting area or in other areas with signs indicating two-way radios should be turned off. Construction crews often use remote-control RF devices to set off explosives. Turn your phone off when you're in any area that has a potentially explosive atmosphere.

[Page 135: Restricting Children's Access To Your Phone](#)

Restricting Children's Access to Your Phone Your phone is not a toy. Do not allow children to play with it as they could hurt themselves and others, damage the phone or make calls that increase your telephone bill. Protecting Your Battery The guidelines listed below help you get the most out of your battery's performance.

[Page 136: Disposal Of Lithium Ion \(Li-Ion\) Batteries](#)

Disposal of Lithium Ion (Li-Ion) Batteries For safe disposal options of your Li-Ion batteries, please ensure that disposal of this in accordance with law and regulation. Do not dispose of the battery in fire; the cell may explode. Do not open or puncture the battery; the released electrolyte is corrosive and may cause damage to the eyes and skin.
