Notices ASUS Recycling/Takeback Services ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment. We believe in providing solutions for you to be able to responsibly recycle our products, batteries, other components, as well as the packaging materials. Please go to <http://csr.asus.com/english/Takeback.htm> for the detailed recycling information in different regions.

[Page 5: Safety And Maintenance Information](#)

Safety and maintenance information Your ASUS LCD Monitor is designed and tested to meet the latest standards of safety for information technology equipment. However, to ensure your safety, it is important that you read the following safety and maintenance instructions.

[Page 6: Monitor Placement](#)

- Use a cleaner that is intended for use with an LCD monitor.
- Do not use a cleaner containing alcohol or acetone.
- Do not spray the cleaner directly on the screen as it may drip inside the monitor and cause an electric shock.
- LCD monitor behavior
- The monitor screen may flicker when you use it for the first time. Turn your monitor off, then turn it on again to ensure that your monitor stops flickering.
- The monitor screen may appear unevenly bright depending on the desktop pattern that you use. Configure the screen to your preferred settings.
- When you encounter a black or flashing screen, contact your dealer or the ASUS Service Center. Do not try to fix your monitor by yourself.
