[Page 4](#) TOSHIBA AMERICA INFORMATION SYSTEMS, INC. ("TAIS") Telecommunication Systems Division License Agreement IMPORTANT: THIS LICENSE AGREEMENT ("AGREEMENT") IS A LEGAL AGREEMENT BETWEEN YOU ("YOU") AND TAIS. CAREFULLY READ THIS LICENSE AGREEMENT. USE OF ANY SOFTWARE OR ANY RELATED INFORMATION (COLLECTIVELY, "SOFTWARE") INSTALLED ON OR SHIPPED WITH A TAIS DIGITAL SOLUTIONS PRODUCT OR OTHERWISE MADE AVAILABLE TO YOU BY TAIS IN WHATEVER FORM OR MEDIA, WILL CONSTITUTE YOUR ACCEPTANCE OF THESE TERMS, UNLESS SEPARATE TERMS ARE PROVIDED BY THE SOFTWARE SUPPLIER.

[Page 5](#) TAIS and which are not compatible or are of inferior quality, design, or performance. The sole obligation of TAIS or Toshiba Corporation under this warranty, or under any other legal obligation with respect to the equipment, is the repair or replacement of such defective or missing parts as are causing the malfunction by TAIS or its authorized dealer with new or refurbished parts (at their option).

[Page 6](#) WARRANTIES FOR NON-TOSHIBA BRANDED THIRD PARTY PRODUCTS A valuable element of Toshiba's product strategy is to offer our customers a complete product portfolio. To provide this value to our customers at the most optimal prices, we offer both Toshiba-branded and third-party manufactured products that support our Toshiba Strata CIX product portfolio.

Unbox the Dialogic voice (Dialogic part number D4PCIUF/S) and/or MultiTech System Fax-modem (MultiTech part number MT5634ZPX-PCI) board(s) to be installed in this system. Note MicroMAS only supports half-length PCI boards. Step 6: Install Voice/Fax Board(s) 1. Loosen the riser retaining bar by pulling on the release tab and lifting the Bar to unlock it (shown right).

[Page 10](#) Board(s). Step 8: Check Hardware Connections Check to insure that all other boards and cables are properly seated. Step 9: Complete MicroMAS Hardware Setup 1. Replace the cover and tighten the two thumbscrews. 2. Connect the following items (see Figure 3 on page 5 connections): •...

[Page 11](#) 220V and 110V Switch Mouse Figure 3 MicroMAS Front and Back Panels Step 11: Power Up the PC 1. Plug-in the power cable to the rear of the unit and to the UPS. 2. Power up the unit using the Power Switch on the front control panel. If the Windows XP logon...

[Page 12](#) MicroMAS Installation Guide Installation Step 12: Install Fax-modem Boards When the MicroMAS is powered-up after the installation of a MultiTech modem board the Windows Found New Hardware Wizard should start. Follow this procedure to complete the installation wizard. 1. The first dialog box will...

[Page 13](#) MicroMAS Installation Guide Installation 3. Select Search for the best driver in these locations. Uncheck the Search removable media [floppy, CD-ROM...] button. Check the Include this location in the search box. Then type D:\ (for the CD ROM). Click on Next.

[Page 14](#) MicroMAS Installation Guide Installation 6. Click Finish to complete installation of one fax- modem card. Repeat the above steps if another modem is detected. 7. When all of the modems have been installed the Found New Hardware box will display briefly.

[Page 15](#) MicroMAS Installation Guide Installation Manager then expand the Modems tab. The MultiTech single port Modems will appear in the list as shown below. Step 13: Configure Strategy using eManager When the fax-modem card has been installed, the Strategy software must be configured for the modem to function.

[Page 16](#) MicroMAS Installation Guide Installation Step 14: Configure Voice Board Software Depending on the Strategy ES's hardware configuration, you may need one or all of the following procedures to fully configure all of the voice boards that you have installed. To set up and configure the software for the voice boards, you must run the Dialogic Configuration Manager (DCM).

[Page 17: Windows Xp Firewall Settings](#)

The MicroMAS runs on the Windows XP Professional operating system. Windows XP includes an Internet Connection Firewall (ICF). When installing the MicroMAS, consider the configuration of the network and how the MicroMAS will be accessed. Changes to the ICF may be required. Considerations include: •...

[Page 22](#) Installation Maximum MicroMAS Ports One MicroMAS can support up to 8 voice ports. MicroMAS can support up to 8 ports of Voice Mail OR up to 8 ports of ACD Voice Announcements. When voice mail and voice announce are both on one MicroMAS, it can support any combination of Voicemail and Voice Announce ports as long as the combined number does not exceed 8 ports.

[Page 23](#) The Upload button is enabled if no file is selected, otherwise disabled. The MicroMAS License Container File is an XML file generated by the FYI application. The file can be downloaded from FYI or the file can be mailed from FYI.

[Page 24](#) This procedure is used to change the MicroMAS static IP Address from the default setting. The MicroMAS must be mounted in the rack, the power cord plugged in and the IP cable installed between the MicroMAS and the IP switch (LAN).

[Page 25](#) Ensure that the MicroMAS does NOT have internet access at this time. 2. Connect power cable to your MicroMAS server and power up the server. 3. Power up the MicroMAS by setting the AC Input Switch of the power supply, then press the Power Switch on the front panel.

[Page 26](#) To setup the SES and ACD refer to their manuals. MicroMAS Software Backup The files on the MicroMAS should be backed up on a regular basis. The backup files can be stored on a network disk drive or another network device.

[Page 27](#) FYI website. MicroMAS Modem Installation (Optional) The MicroMAS can be accessed from a remote location via the network by using the Windows® XP Remote Desktop feature. The MicroMAS can also be accessed via a dial-up connection after the installation of the Zoom 3090 USB V.92 Modem (Toshiba part number SYS-USB-MODEM).

[Page 28](#) MicroMAS Installation Guide MicroMAS Modem Installation (Optional) Step 2: Install Hardware and Configure Windows on MicroMAS 1. Plug in the USB cable between the modem and the MicroMAS. When the Found New Hardware wizard appears, click Next. Windows will install the modem.

[Page 29](#) Next. 11. In the Completing dialog box (shown right), click on Finish. 12. The MicroMAS setup is complete. The remaining steps are performed at the computer that will be used to dial into the MicroMAS.

[Page 30: Step 3: Client Configuration](#)

MicroMAS Installation Guide MicroMAS Modem Installation (Optional) Step 3: Client Configuration Create the dialup connection on the computer that will be used to dial into the MicroMAS 1. Get to the Network Connections / Add Network Connection dialog box (shown right).
