I/O Specification

● Signal Specification

- Line0 (GPIO Input, I/O connector : 4 pin)

Input Circuit

Level

Polarity 

Pulse Width

Input circuit diagram

Notes of external trigger signal:

Depending on cable length, cable kinds and input current of trigger input line, Random Trigger Shutter operation may not

satisfy timing specification or camera may not receive EXT_TRIG signal. Please confirm it before use.

Notes of input level:

Line0 and Line2 have different input level. Please use input level within the voltage described in this specification.
