WARNING

CAUTION

Regulatory Compliance Statement

FCC Class A Notice

TOSHIBA
Leading Innovation >>>
this equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC rules. these limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. this equipment generates, uses, and can radiate radio frequency energy, and if it is not installed and used in accordance with the instruction manual, it may cause harmful interference to radio communications. operation of this equipment

in a residential area is likely to cause harmful interference, in which case the user will be required to correct the interference at his own expense.

this device complies with part 15 of the FCC rules. operation is subject to the following two conditions:

1.

this device may not cause harmful interference.

2.

this device must accept any interference received, including interference that may cause undesired operation.

Notice: The FCC regulations provide that changes or modifications made to this device that are not approved by toshiba international Corporation may void the authority granted to the user by the FCC to operate this equipment.

EMC Directive Class A Note

this UpS is commercial in design and not intended for use at anytime in a residential environment.

2

the word DANGER in capital letters preceded by the safety alert symbol indicates that an imminently hazardous situation exists, and if not avoided will result in loss of life or serious injury to personnel.

the word WARNING in capital letters preceded by the safety alert symbol indicates that a potentially hazardous situation exists, and if not avoided may result in loss of life or serious injury to personnel.

the word CAUTION in capital letters preceded by the safety alert symbol indicates that a potentially hazardous situation exists, and if not avoided may result in minor or moderate injury.

the word NOTICE in capital letters without the safety alert symbol indicates a potentially hazardous situation exists, and if not avoided may result in equipment and property damage.
