Product Use and Warranty Restrictions

TOSHIBA
the toshiba products listed in this document are intended for usage in general electronics applications (computer, personal equipment, office equipment, measuring equipment, industrial robotics, domestic

appliances, etc.). these toshiba products are neither intended nor warranted for usage in equipment that requires extraordinarily high quality and/or reliability or where a malfunction or failure may cause loss of human life or bodily injury (Unintended Usage). Unintended Usage includes atomic energy control instruments, airplane or spaceship instruments, transportation instruments, traffic signal instruments, combustion control

instruments, surgical operating room or life-support equipment, all types of safety devices, etc.
Unintended

Usage of toshiba products listed in this document shall be made at the customer's own risk.

PLEASE INFORM TOSHIBA INTERNATIONAL CORPORATION OR AUTHORIZED REPRESENTATIVE IN CASE OF INCONSISTENCIES, OMISSIONS, OR QUESTIONS.

the instructions contained in this manual are not intended to cover all of the details or variations in equipment, or to provide for every possible contingency concerning installation, operation, or maintenance.

Should further information be required or if problems arise which are not covered sufficiently, contact your Toshiba sales office.

the contents of this instruction manual shall not become a part of or modify any prior or existing agreement, commitment, or relationship. the sales contract contains the entire obligation of toshiba international

Corporation UpS division. the warranty contained in the contract between the parties is the sole warranty of toshiba international Corporation UpS division and any statements contained herein do not create

new warranties or modify the existing warranty.

Any electrical or mechanical modifications to this equipment without prior written consent of Toshiba

International Corporation will void all warranties and may void the UL/CUL listing. Unauthorized modifications

can also result in personal injury, loss of life, or destruction of the equipment.

Qualified Personnel are those who have the skills and knowledge relating to the construction, installation, operation, and maintenance of the electrical equipment and have received safety training on the hazards involved (refer to the latest edition of nFpA 70e for additional safety requirements).
