Press , and then use your navigation key to scroll through the available ringers. A sample ringer will sound as you highlight each option.

Page 70: Using Voice Prompt

Using Voice Prompt This feature allows you to hear voice prompts at Voice Memo, Screen Call setting, etc. (default setting is off). To enable or disable voice prompt: Select Select On or Off. Tip: When ringer volume is set to “Silence All,”voice prompts cannot be heard.

Page 71: Adjusting The Phone's Volume Settings

Adjusting the Phone’s Volume Settings You can adjust your phone’s volume settings to suit your needs and your environment. To adjust the ringer and key volume: Select > Settings > Sounds > Ringer/Key Vol. Select Ringer Volume, Calendar/Alarm, Start-up/Pw-off, or Key Beep.

Page 72: Alert Notification

Alert Notification Your phone can alert you with an audible tone when you change service areas, once a minute during a voice call, or when there are incoming or missed Sprint PCS Ready Link calls. To set alerts: Select Select your desired option and press Service sets an alert to notify you of network services parameter changes.

Page 73: Silence All

Silence All There may be times when you need to silence your phone entirely. The phone’s Silence All option allows you to mute all sounds without turning your phone off. To activate Silence All: With the flip open, press the Side Volume key (down repeatedly until “Silence All”appears.

Page 74: Display Settings

Display Settings Changing the Text Greeting The text greeting can be up to 15 characters and is displayed on your phone’s screen in standby mode. You may choose to keep the phone’s default greeting (“Sprint”), or you may enter your own custom greeting. To display or change

your greeting: Select Enter a custom greeting using your keypad and press...

Page 75: Changing The Display Screen Animation

To change the Keypad backlight setting: Select Key after step 1 of “To change the Main LCD or Sub LCD backlight setting:”on the previous page. Select Always Off or a preset length of time. Note: Long backlight settings affect the battery’s talk and standby times.

Page 76: Changing The Display For Area Name

Changing the Display for Area Name This feature enables you to show the state of the phone number you are calling or are called from when the number is not registered in your Contacts list. For example, a call to or from 213-555-5555 will display “California.”...

Page 77: Standby Mode

Changing the Phone’s Menu Style Your phone allows you to choose how the main menu items are displayed on your display screen. To select the display’s menu style: Select > Settings > Display > Main Menu. Select Grid View or ListView. Grid View to view each main menu item as an animated single-screen icon.

Page 78: Changing The Background

Changing the Text Font Size This setting allows you to adjust the display appearance when entering text (for example, when writing a message or when adding a Contacts entry) or when viewing a message. To change the text input font: Select Select View or Input.

Page 79: Setting Return To Standby Mode

Setting Return to Standby Mode This feature allows you to select the way to return to standby mode. To set this feature: Select > Settings > Display > Return to Idle. A message appears. Press OK (left softkey) to continue. Select Automatically or End Key.

Page 80: Location Settings

Location Settings Your phone is equipped with a Location feature for use in connection with location-based services that may be available in the future. The Location feature allows the network to detect your position. Turning Location off will hide your location from everyone except 911.

Page 81: Messaging Settings

Messaging Settings Staying connected to your friends and family has never been easier. With your phone’s advanced messaging capabilities, you can send and receive many different kinds of messages. (For more information, see “Using SMS Text Messaging”on page 171, “Accessing Messaging”on page 193, and “Using SMS Voice Messaging”on page 180.) Your phone’s messaging settings make text messaging even faster and easier by letting you decide how you would like to...

Page 82

Managing Preset Messages Your phone is loaded with 20 preset messages, in English and in Spanish, to help make sending text messages faster and easier. These messages, such as “Where are you?,””Let’s get lunch,”and “Meet me at,”can be customized or deleted to suit your needs. To edit a preset message: Select (The list of preset messages is displayed.)

Page 83

Setting a Callback Number With this feature, you can notify your recipients of your callback number with a text message. To set the callback number: Select > Settings > Messaging > Text > Send Callback#. Select an option from the following and press None to send no callback number.

Page 84

Setting Drafts Alert Drafts Alert gives you a reminder when you have unsent messages waiting in the drafts folder. To set Drafts Alert: Select Select On. Setting the Speakerphone for SMS Voice Messaging You can set the speakerphone on or off for SMS Voice messaging.

Page 85: Airplane Mode

Setting an Alert Notification for SMS Voice Messaging SMS Voice Messaging uses your phone’s data services. You can set your phone to play an alert to let you know you are connecting to

data services each time you access an SMS Voice message.

Page 86: Tty Use With Sprint Pcs Service

TTY Use With Sprint PCS Service ATTY(also known as a TDD or TextTelephone) is a telecommunications device that allows people who are deaf, hard-of-hearing, or who have speech or language disabilities to communicate by telephone. Your phone is compatible with select TTY devices. Please check with the manufacturer of your TTY device to ensure that it supports digital wireless transmission.

Page 87

To turn TTY Mode on or off: > Settings > Others > TTY. Select (An informational message is displayed.) Press or OK (left softkey) to continue. Select Enable to turn TTY mode On. – or – Select Disable to turn TTY mode Off. Note: In TTY Mode, your phone will display the TTY access icon.

Page 88: Phone Setup Options

Phone Setup Options Shortcut (My Favorites) Your phone offers you the option of assigning a shortcut key to a favorite or often-used function. Pressing the navigation key to the left in standby mode will launch your personally designated shortcut. To assign your shortcut key: Press the navigation key left.

Page 89: Display Language

Auto-Answer Mode You may set your phone to automatically pick up incoming calls when connected to an optional hands-free car kit or a headset. To set Auto-Answer mode: Select > Settings > Others > Auto Answer. Select an option and press Car Kit/Headset to answer calls automatically when the phone is connected to a hands-free car kit or a headset (sold separately).

Page 90: Setting The Current Time

Setting the Current Time To set the current time when you are roaming in an area with no digital network: Select Set the current time and date and press Note: This feature is available only when you are in an area with no digital network available.

Page 91: Setting Any Key Answer

Setting Any Key Answer This feature allows you to answer incoming calls by pressing any key (except To turn any key answer on or off: > Settings > Others > Any Key Answer. Select Select On or Off . Setting the Side Key Guard This feature enables you to lock the side keys while the flip is closed.

Page 92: Setting Abbreviated Dialing

Recent Access to display the three most recently used input mode menu items from the top of the list when this setting is set to on. T9 Settings to customize the T9 settings (see page 46). Add Word to store words that you use frequently (see page 45).

Page 93: Setting Headset Mode

Setting Headset Mode This feature allows you hands-free phone use. Set the headset mode to Voice Call or Ready Link and press the Turbo Button (the operation button) on the headset to activate useful functions such as making calls, receiving calls, or switching to the Voice Command feature.

Page 94: Wireless Backup

Wireless Backup This feature allows you to back up all of your contacts to the Sprint Web site and restore them if your phone is lost, stolen, damaged, or replaced. Note: To use the Wireless Backup service, you are required to activate the service from your phone.

Page 95

To deactivate the Wireless Backup service: Select > Settings > Wireless Backup. Select Unsubscribe. (A message will be displayed.) Follow the onscreen instructions to unsubscribe from the Wireless Backup service. Note: You can unsubscribe from the Wireless Backup service only through the Sprint Web site.

Accessing the Security Menu All of your phone’s security settings are available through the Security menu. You must enter your lock code to view the Security menu. To access the Security menu: Select > Settings > Security. Enter your lock code to display the Security menu. Tip: If you can’t recall your lock code, try using the last four digits of either your Social Security number or phone number or try...

Page 98: Unlocking Your Phone

Unlocking Your Phone To unlock your phone: From standby mode, select Unlock (right softkey). Enter your lock code. Lock Services With this feature, you can choose to restrict access to Sprint PCS Vision services, incoming and outgoing voice calls, and Sprint PCS Ready Link calls. To activate lock services: From the Security menu, select Others >...

Page 99: Restricting Calls

Restricting Calls There may be occasions when you want to limit the numbers your phone can call or from which it can receive calls. You can use the Restrict Calls setting to do just that. (The Restrict Calls setting does not apply to 911 or Sprint Customer Service.) To restrict calls: Select >...

Page 100: Using Special Numbers

Using Special Numbers Special numbers are important numbers that you have designated as being “always available.”You can call and receive calls from special numbers even if your phone is locked. You can save up to three special numbers in addition to your Contacts entries (the same number may be in both directories).

Page 101: Erasing Contacts

Erasing Contacts You can quickly and easily erase all the entries in your Contacts. To erase all the names and phone numbers in your Contacts: Select > Settings > Security, and then enter your lock code. (The Security menu is displayed.) Select Erase Ph.

Page 102: Resetting Your Phone

Resetting Your Phone Resetting the phone restores all the factory defaults, including the ringer types and display settings. The Contacts, Call History, Calendar, and Messaging are not affected. To reset your phone: Select code. (The Security menu is displayed.) Select Reset Phone. Press OK (left softkey) to continue.

Page 103: Changing The Passcode

Note: To send a message from mailer software, input your 10-digit wireless phone number followed by “@messaging.sprintpcs.com.” To activate this feature, the following presetting is required: Select > Settings > Security, and then enter your lock code. (The Security menu is displayed.) Select Others >...

Page 104: Security Features For Sprint Pcs Vision

Security Features for Sprint PCS Vision Enabling and Disabling Sprint PCS Vision Services You can disable Sprint PCS Vision services without turning off your phone; however, you will not have access to all Sprint PCS Vision services, including Web and messaging. Disabling Sprint PCS Vision will avoid any charges associated with Sprint PCS Vision services.

Page 105: Using The Parental Control Feature

Using the Parental Control Feature This feature allows you to restrict outgoing and incoming calls, access to services such as Sprint PCS Vision and Sprint PCS Ready Link, as well as use the Edit Phone Book function. Most menu options for the Limit Use, Change Lock, and Lock Services menus in Parental Control are the same as the options for the Security menu.

Page 106 To add or replace a special number: Select Enter your lock code to display the Parental Control menu. Select Special #s. Select a field for your entry and press Enter the number and press To edit Contacts: You can also edit Contacts from the Parental Control menu while any Limit Use feature (except Allow All) is enabled.

Page 107: Controlling Your Roaming Experience

Roaming is the ability to make or receive calls when you're off the Nationwide Sprint PCS Network.Your new dual-band/ tri-mode SCP-7000 by Sanyo works anywhere on the Nationwide Sprint PCS Network and allows you to roam on other analog and 1900 and 800 MHz digital networks.

Page 108: Understanding Roaming

Understanding Roaming Recognizing the Roaming Icon on the Display Screen Your phone's display screen always lets you know when you're off the Nationwide Sprint PCS Network. Any time you are roaming, the phone displays the roaming icon (roaming on a digital system, the roaming icon will be displayed along with the text –...

Page 109 Roaming on Analog Networks When you roam on analog networks, you will experience quality similar to that provided by other analog carriers today. Although some features, such as Sprint PCS Vision and Sprint PCS Voice Command, will be unavailable, you can still make and receive calls and access voicemail.

Page 110 Checking for Voicemail Messages While Roaming When you are roaming off the Nationwide Sprint PCS Network, you will not receive on-phone notification of new voicemail messages. Callers can still leave messages, but you will need to periodically check your voicemail for new messages if you are in a roaming service area for an extended period of time.

Page 111: Settingyour Phone's Roam Mode

SettingYour Phone's Roam Mode Your phone allows you to control your roaming capabilities. By using the Roaming menu option, you can determine which signals your phone accepts. Set Mode Choose from three different settings on your dual-band/ tri-mode phone to control your roaming experience. To set your phone's roam mode: Select >...

Page 112: Using Call Guard

Using Call Guard Your phone has two ways of alerting you when you are roaming off the Nationwide Sprint PCS Network: the onscreen roaming icon and Call Guard. Call Guard makes it easy to manage your roaming charges by requiring an extra step before you can place or answer a roaming call.

Page 113 To answer incoming roaming calls with Call Guard on: Press . (A message will be displayed notifying you that roaming charges will apply.) Press to proceed while the pop-up message is displayed. – or – Press any key to erase the pop-up message, press Options (right softkey), and then select Answer or Answer:Speaker.

Page 114: Using Data Roam Guard

Using Data Roam Guard You can set your phone to alert you when you are roaming off the Nationwide Sprint PCS Network and try to use data services such as messaging. To set the conditions for Data Roam Guard pop-up notification: Select Select Always Ask if you want a pop-up notification to appear when you try using data services in a roaming...

Erasing Messages To erase an individual message: From the folder list display, select Inbox, Sent, Pending, Drafts, or your defined folder and press Select the message you want to erase and press Options (right softkey) > Erase > This Message. Tip: To erase all messages, select Erase >...

Page 196: Using Sms Voice Messaging

Using SMS Voice Messaging In addition to sending and receiving SMS Text messages, your phone is enabled with SMS Voice Messaging. With SMS Voice Messaging, you can quickly and easily send a voice message to other SMS-enabled phones or to working email addresses without making a phone call.

Page 197: Using Caller Id

To finish recording, press Done (left softkey). Press Send (left softkey) to send the voice message. Accessing SMS Voice Messages To play an SMS Voice message: When you receive a voice message, a pop-up notification will automatically be displayed on your phone’s screen. Use your softkeys to view and play the voice message.

Page 198: Responding To Call Waiting

Responding to Call Waiting When you’re on a call, Call Waiting alerts you to incoming calls by sounding one beep. Your phone’s screen informs you that another call is coming in and displays the caller’s phone number (if it is available). To respond to an incoming call while you’re on a call: Press Flash or Flash:Speaker).

Page 199: Making A Three-Way Call

Making a Three-Way Call With Three-Way Calling, you can talk to two people at the same time. When using this feature, the normal airtime rates will be charged for each of the two calls. To make a Three-Way Call: Enter a number you wish to call and press Once you have established the connection, press (or select Options [right softkey] >...

Page 200: Using Call Forwarding

Using Call Forwarding Call Forwarding lets you forward all your incoming calls to another phone number – even when your phone is turned off. You can continue to make calls from your phone when Call Forwarding is activated. To activate Call Forwarding: Press Shift Enter the area code and phone number to which calls...

Page 233: Section 4: Safety And Warranty Information

Section 4 Safety and Warranty Information...

Page 234: Important Safety Information

Important Safety Information In This Section General Precautions (page 219) Maintaining Safe Use of and Access to Your Phone (page 219) Using Your Phone With a Hearing Aid Device (page 222) Caring for the Battery (page 223) Radiofrequency (RF) Energy (page 225) Owner's Record (page 228) Phone Guide Proprietary Notice (page 228) This phone guide contains important

operational and safety...

Page 235: General Precautions

General Precautions There are several simple guidelines to operating your phone properly and maintaining safe, satisfactory service. Hold the phone with the antenna raised, fully extended, and over your shoulder. Try not to hold, bend, or twist the phone’s antenna. Don’t use the phone if the antenna is damaged.

Page 236

Using Your Phone While Driving Talking on your phone while driving (or operating the phone without a hands-free device) is prohibited in some jurisdictions. Laws vary as to specific restrictions. Remember that safety always comes first. Tip: Purchase an optional hands-free accessory at your local Sprint Store, or call the Sprint PCS Accessory Hotline Space Following Safety Guidelines...

Page 237

Turning Off Your Phone in Dangerous Areas To avoid interfering with blasting operations, turn your phone off when in a blasting area or in other areas with signs indicating two-way radios should be turned off. Construction crews often use remote-control RF devices to set off explosives.

Page 238: Using Your Phone With A Hearing Aid Device

Not all phones have been rated. Phones that have been rated have a label located on the box. Your SCP-7000 by Sanyo has M3 and T3 ratings. These ratings are not guarantees. Results will vary depending on the level of immunity of your hearing device and degree of your hearing loss.

Page 239: Caring For The Battery

Sprint Nextel further suggests you experiment with multiple phones (even those not labeled M3/T3 or M4/T4) while in the store to find the one that works best with your hearing aid device. Should you experience interference or find the quality of service unsatisfactory after purchasing your phone, promptly return it to the store within 30 days of purchase.

Page 240

accessories approved by Sprint or the manufacturer of your phone. Use only Sprint-approved or manufacturer-approved batteries and accessories found at Sprint Stores or through your phone’s manufacturer, or call 1-866-343-1114 to order. They’re also available at www.sprint.com — click the Accessories click way to ensure they’re genuine and safe.

Page 241: Radiofrequency (Rf) Energy

Radiofrequency (RF) Energy Understanding How Your Phone Operates Your phone is basically a radio transmitter and receiver. When it’s turned on, it receives and transmits radiofrequency (RF) signals. When you use your phone, the system handling your call controls the power level. This power can range from 0.006 watt to 0.2 watt in digital mode.

Page 242: Fcc Radiofrequency Emission

SAR values at or below the federal standard of 1.6 W/kg are considered safe for use by the public. The highest reported SAR values of the SCP-7000 are: AMPS mode (Part 22): Head: 1.080 W/kg; Body-worn: 0.756 W/kg Cellular CDMA mode (Part 22): Head: 0.900 W/kg;...

Page 243

FCC Notice This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.
